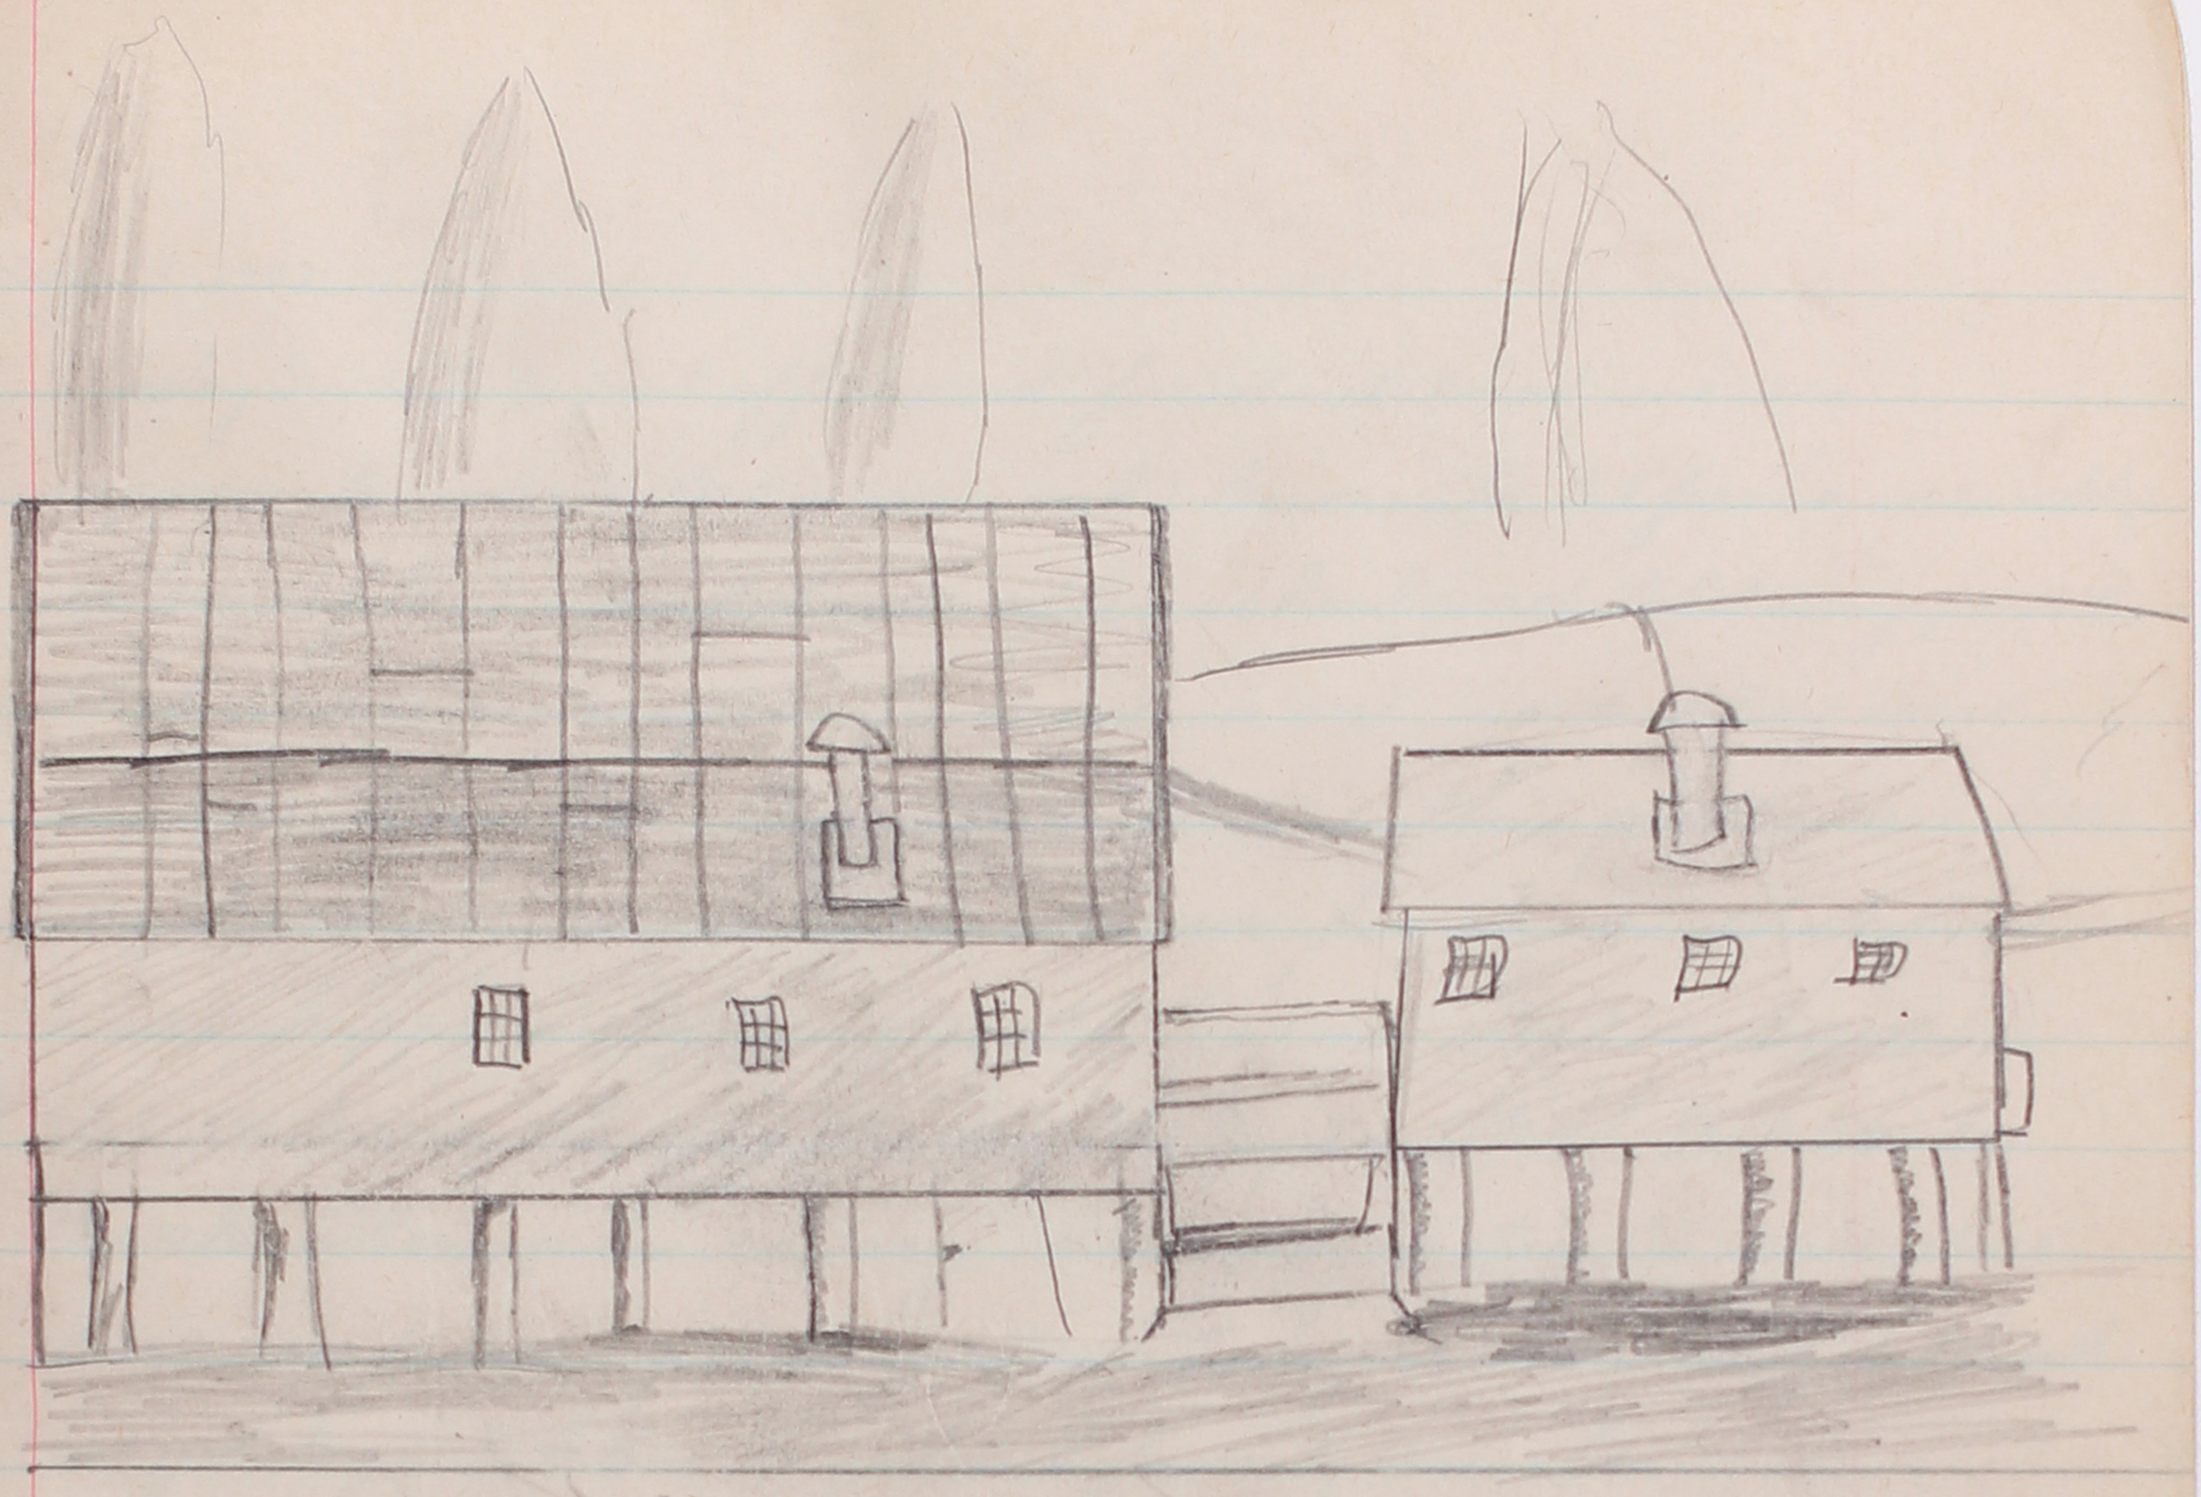
My Diary

Tabekan Inouye



May 13, 1942

Today I went to post office and found out that we are suppose to move to. (in one week) Scarmento California assembly center. After I went home ofter school and told my parent. that we are are suppose to move in one week they were susprice. I wouldn't blane them because this place have been my home for seven year and our family. In that time I was happy untill war with Jopan start on December - 7 or 8 1941 Sunday the day the day the Japan attack Bal Harbor Hawaki. Them also in my seven year of stay in this place have made me a growen person. Today or tomorrow I think we got to go Isleton to get, out family munber.

May 15, 1942

Today was the day we went to Isleton, Calfornia to get our family munber with was "5765," which we also got a phycial exan. Them also we got a appointment to meet out our bus at Isleton, Calfornia. train. Depot. which the appointment was 4 P.M.

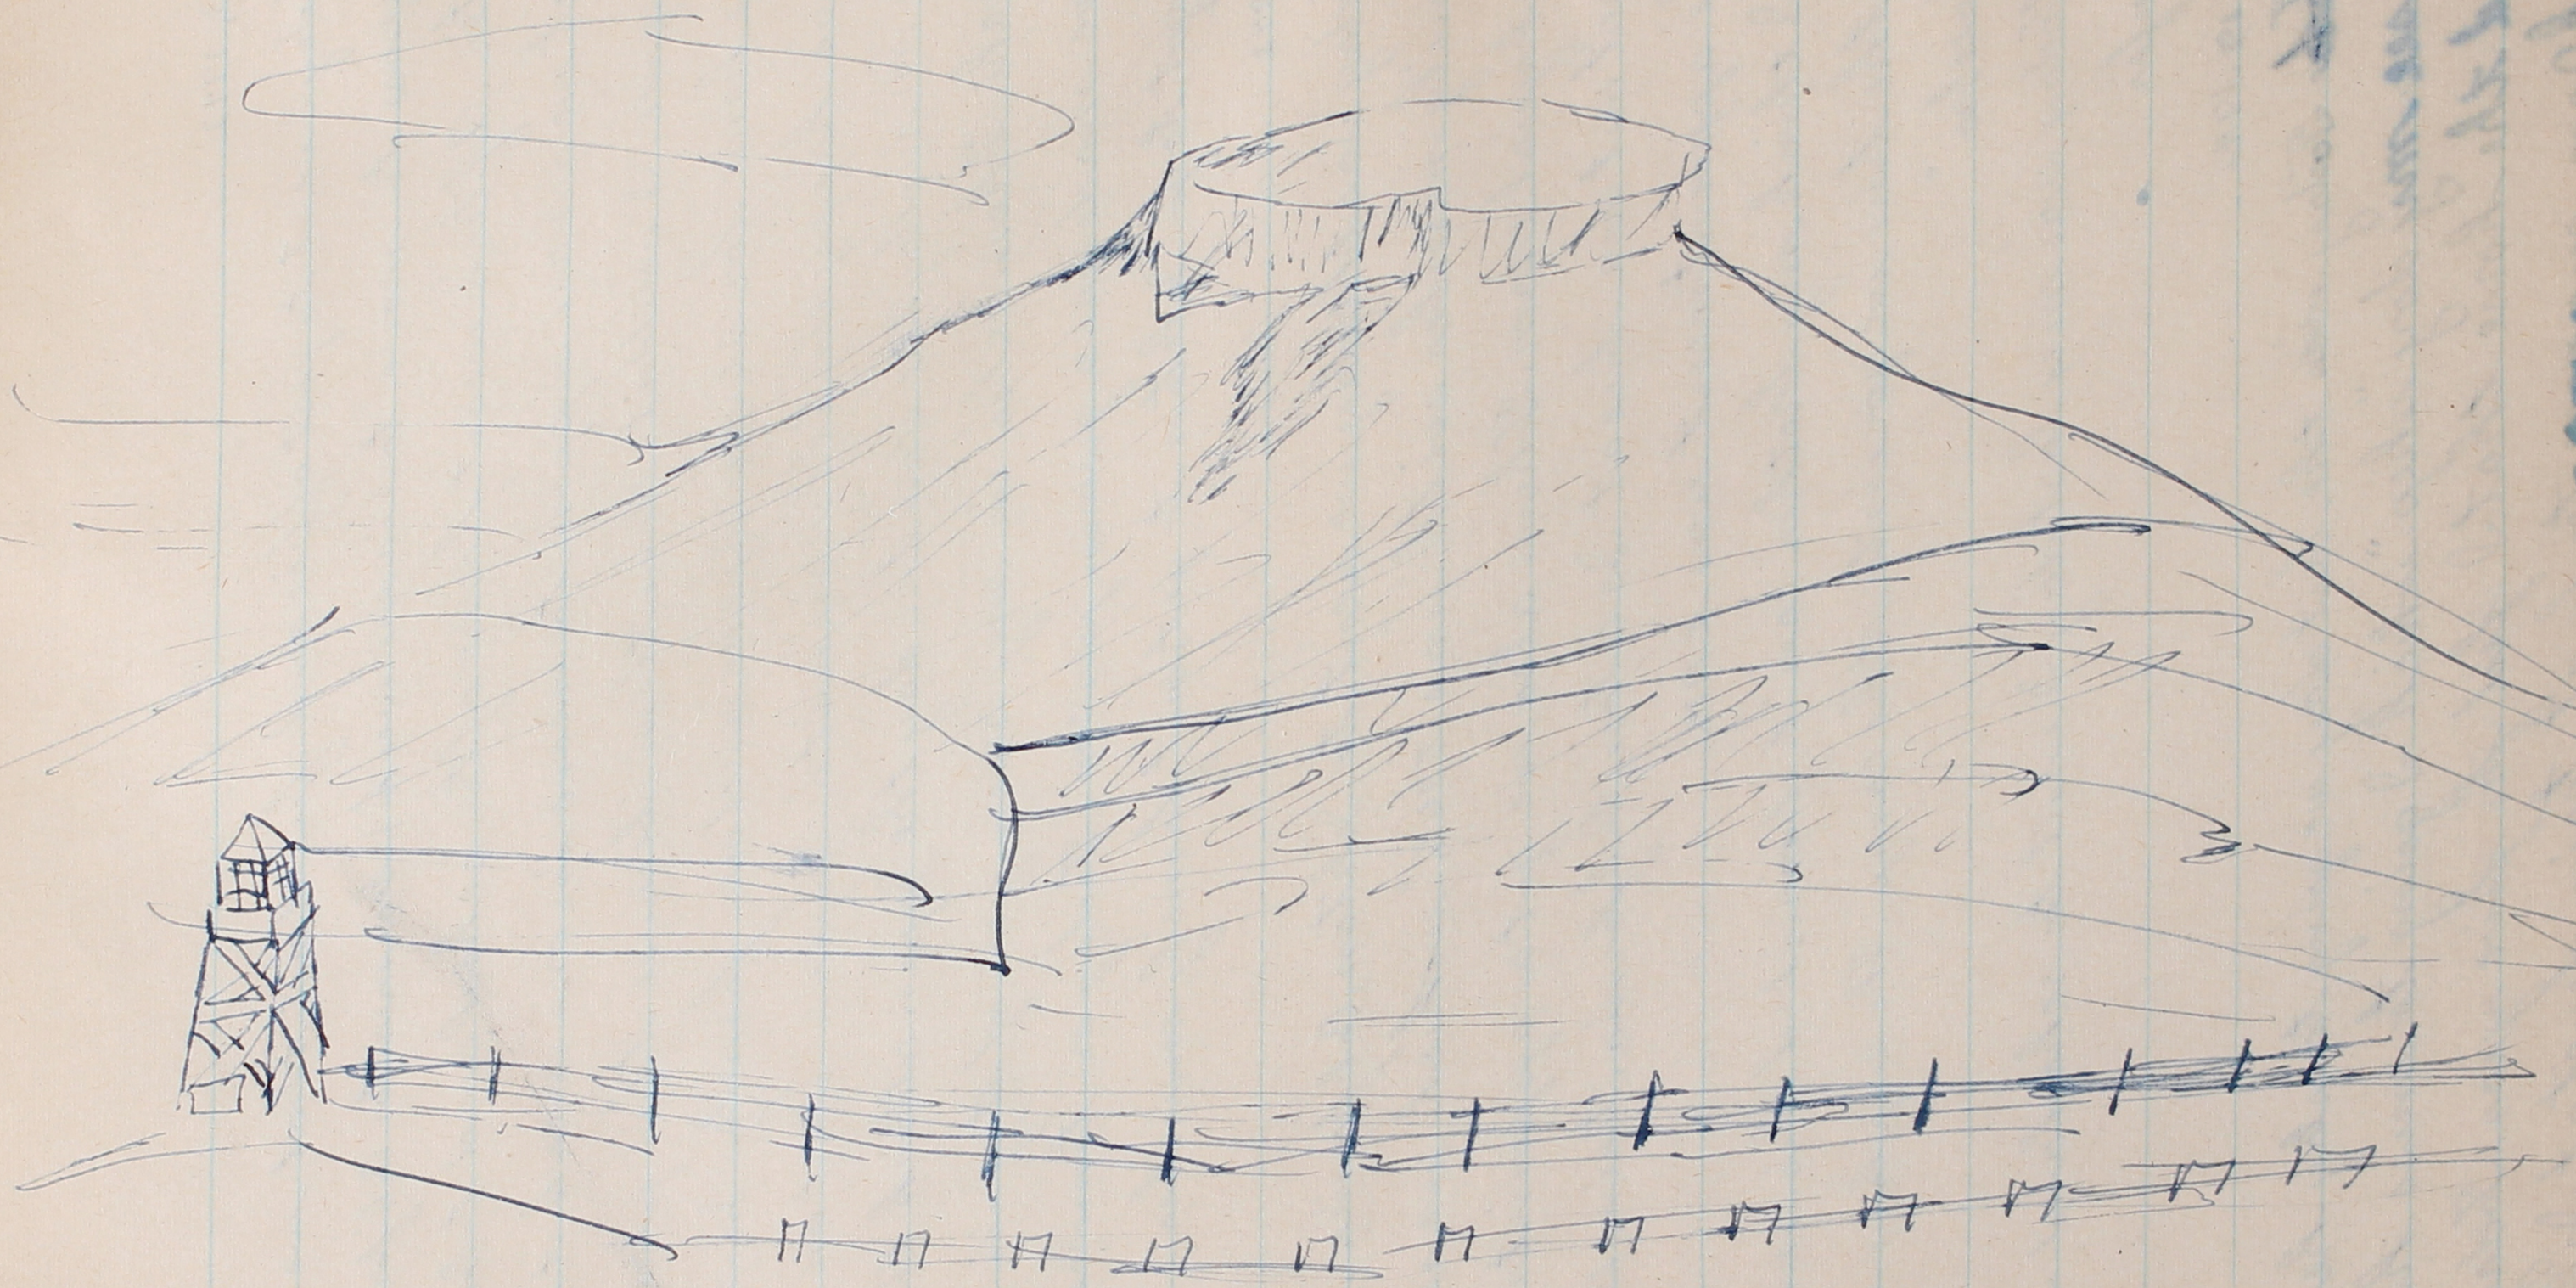
I think my brother can't ~~f~~inished his model airplane by the time we go into the camp. The airplane is model of "airacobra."

Today was my last day I went to school and I got my Tranfer

May ~~19~~ 19. 1942

~~Today~~ Today ~~was~~ the last day we going to stay here and to see my doy "shep." which I going to miss him much and the horse that I fed for five year. Today at four o' clock I am suppose to be at train depot at Isleton, Calfornia

Abalone



This afternoon at 2 o'clock I was at the bus Depot waiting for the bus to come, but the ~~but~~ buss came around 6 o'clock which was two hour late and 5 hour waiting for the bus. The near Isleton bridge the bus stop which result in waiting for about 1 hour waiting for anthor bus. This afternoon about 8 o'clock we arrive at Sacramento. California.

About 8:30 this afternoon I ate my ~~nnn~~ 1st meal at the camp. It's was a spam and rice and also a ~~rice~~ water and that was all, I got at the mess-hall. The 1st meal ~~remain~~ remain of lunch instead of supper.

May 25, 1942

Today I learn a couple of thing about this camp. The camps Is call Walerga and we are living in Block 4 Barrack 26. The condition of this camp is bad because of hot weather, bad toilet skinkly toilet, and the mess-hall which I got to wait about couple of hour before the line go in and I hate waiting under the hot sunn. To my way thinking I think I got to make use what I have. Thery is one good thing that I like, is the airport locate on west end of the camp, which I could see airplane taking off, landing, and flying. Them also the mess we suppose to eat is still close because of condition and the runor saying that we wouldn't stay long in here.

I also got my dipderia shot now and then at the hospital which is locate at sourthern end of the camp. The hospital is something like our barrack but built better and the hospital have Japanesses Doctor

Castle Rock

I also enroll in school, which I enroll in seventh grade The school is like our barrack, but it's badder than I think because it is iuse as a garage for fire engine. The floor are rock or gravel and the school doesn't have no book and later we got blackboad to a classroom.

The terrain of this camp in bad, because the camp is hill up and down which some barrack is k raise highyer.

The camp is guard by the soldies, who carry around a shotgun to make sure their ain is right.

JUNE 4, 1942

Today they posses a notice saying that they are going to go to Tule-lake California. boy 'o boy. I thought were going to get out of hell at last and the people of Block 4 was the 1st people going out. That night I had a drean of Tule lake, a place where they is lake near, a place where I go swiming, and place where I could go fishing. To me, I hope this drean come true.

JUNE 15, 1942

Today is the day were leaving Waleriga for Tule-lake at 5 o'clock. This moring I wake up about 8 o'clock because we got packed thing and I am hoping for better place than Waleriga.

This afternoom about 50'clock I went to ad Buloling. and from there I went to train which I went with bus guarded by M.P. ~~Military Police~~ (Military Police) to train. At 80'clock we left the place we rode the train instead of 50'clock. We rode the whole night and at moring we were around "Mount Lassen," and sunrise around Shasta Mountain

The Block

JUNE 16, 1942.

Today I arrive at Tule-Lake California at about 10 O'clock A.M. The truck took use to some place in ward 2. Then We were assigned to a barrack which ~~wh~~ was 1605-A+B. We were the six family who arrive from Walerga. The barracks room were bigger than Walerga.

I expeat thery was a lake but the lake was nowhere in sight and this place use to be lake ~~on~~ which is now drain. There is part of the lake in the other side of the mountain.

At the mess-hall there was span and rice sane as what we got the 1st day in Walerga. The mess-hall is biggn than Walergar and look like two barrack conbine together

JUNE 17, 1942

There were ~~another~~ another family living next door callest Kinoshita which all ~~boy~~ girl ~~and~~ two boy. I think they came from Oregon and by the there are lot of upstater in here, like Washington, Oregon.

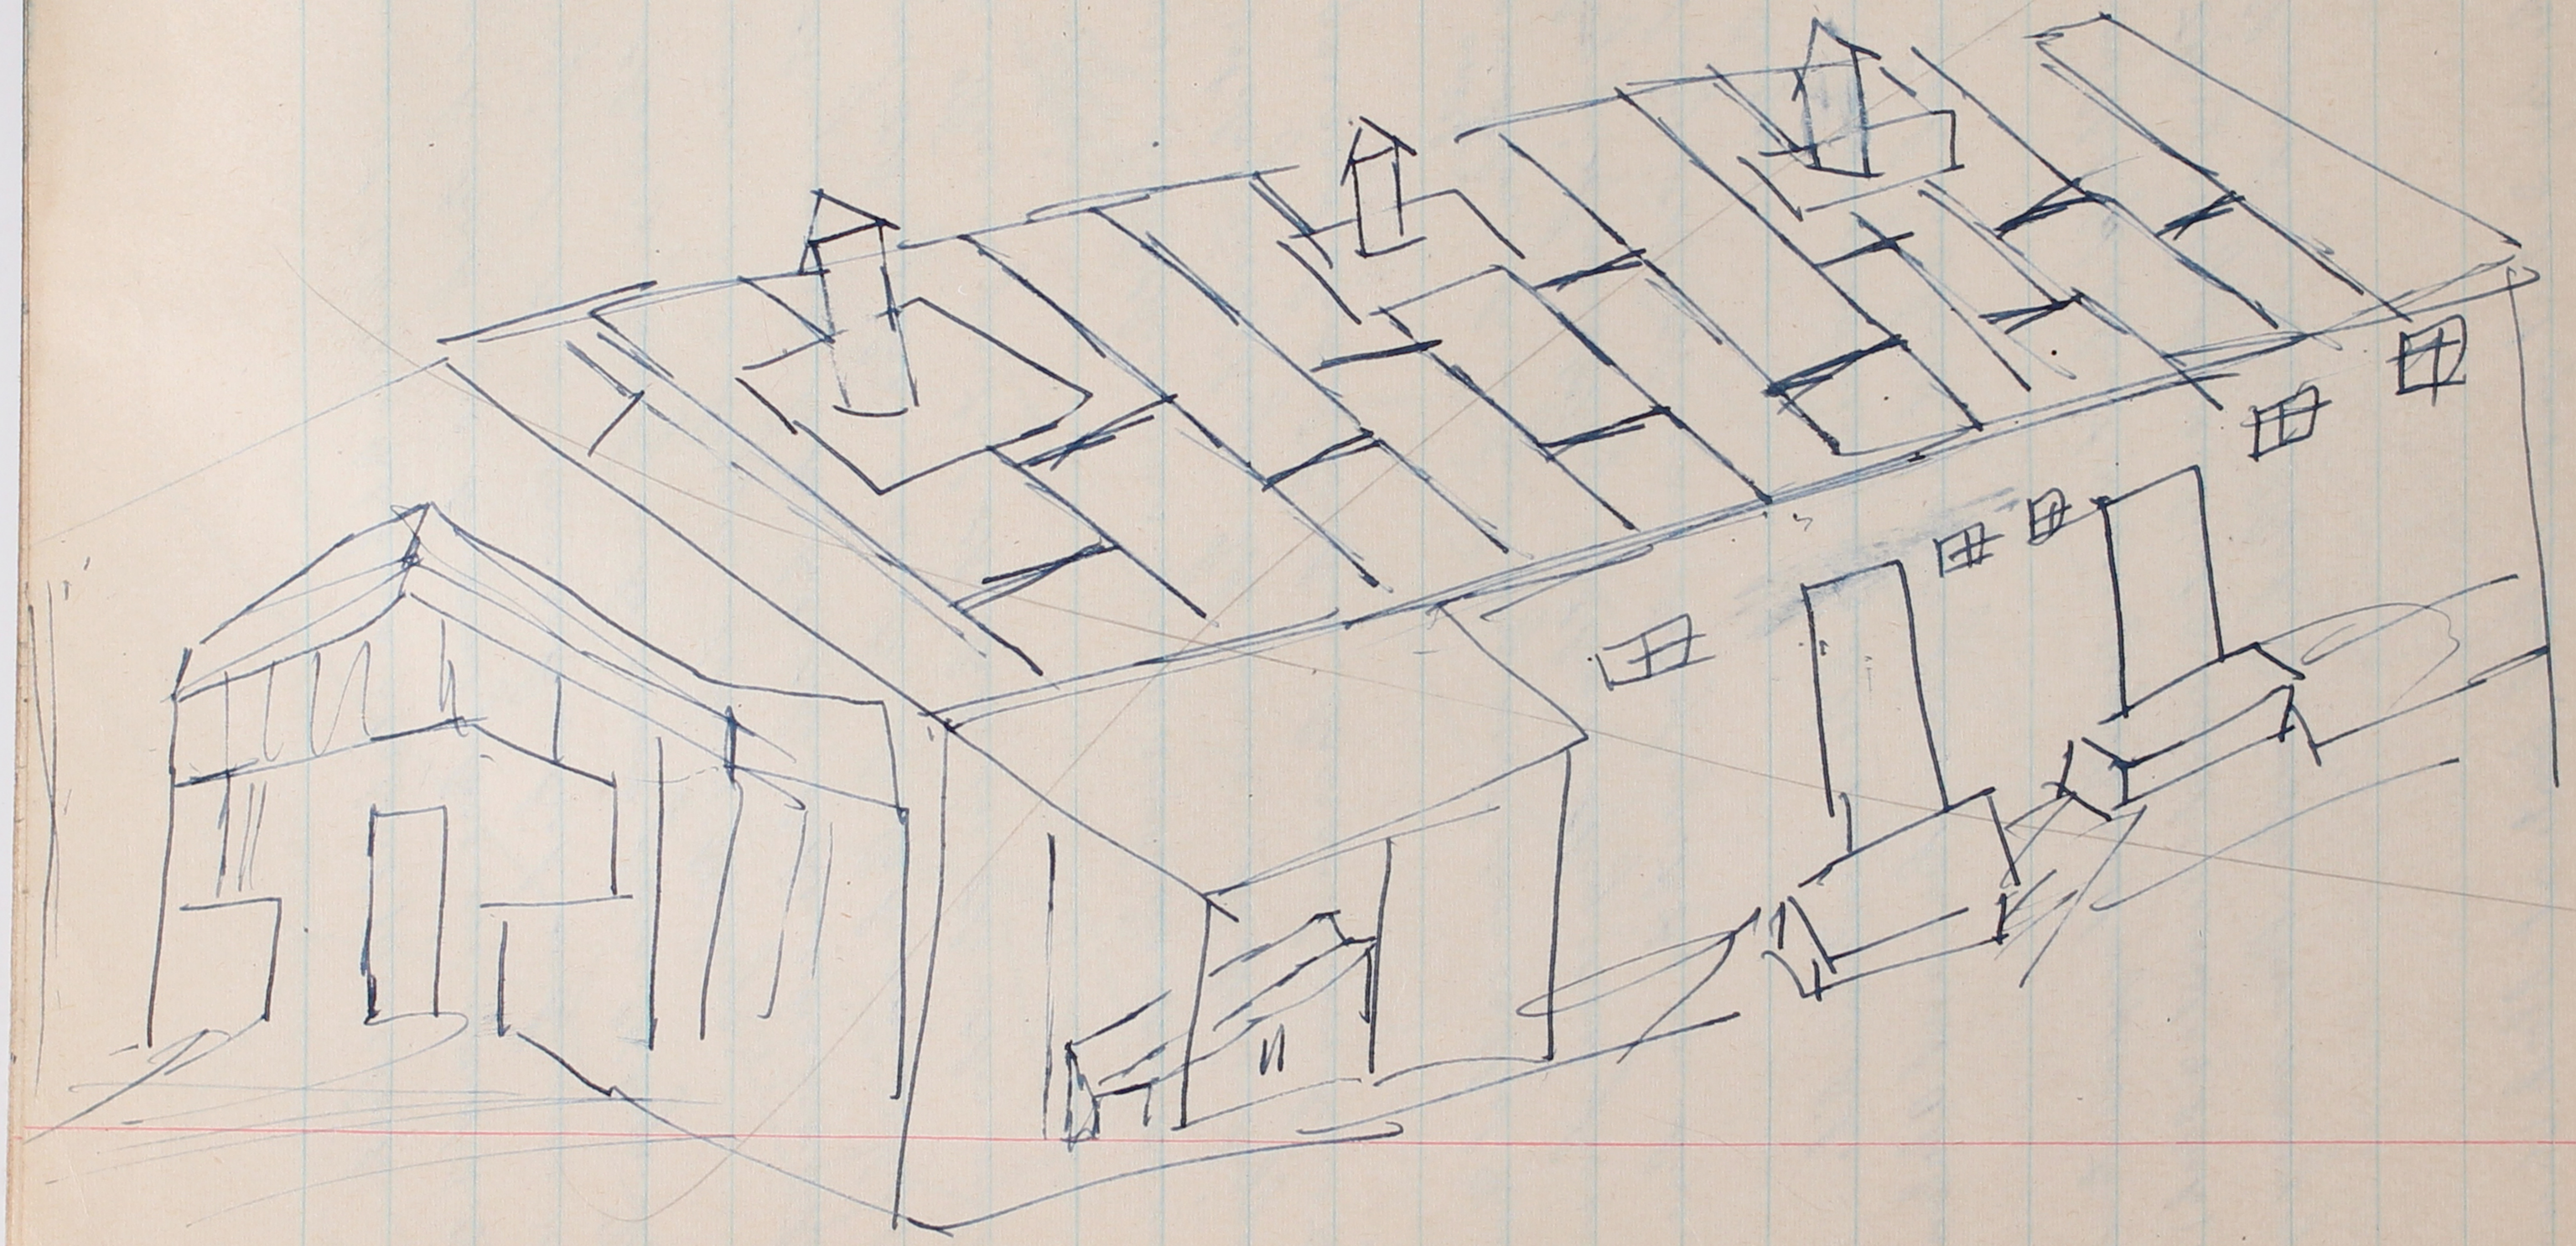
This place have good scenuary like mountain like Castle Rock which is about 1/4 mile from here and Abalone or Bald Rock.

This camp could hold about 20,000 people and suppose to have 80 block, but thery only have about 2 ward (1 ward = 9 block) which they are still making some block. I wonder how many year I stay here.

Sept. 14, 1942

Today is the day I start going school, locate at block 66 which I enroll in eight grade.

The Barrack



The 1st time I went to the school I didn't feel good because there were lots of psople in the room. The school doesn't have chair, table and book. The school is located at 6607-C is which I'an going now. The school pupil are mostly Washington & Oregon and little bit Cabfornian I think 3/4 are Washington and Oregon and 1/4 Californian.

The condition of the school is bad but I hope Its turn better in future day.

~~Octo~~ Octerber 7, 1942

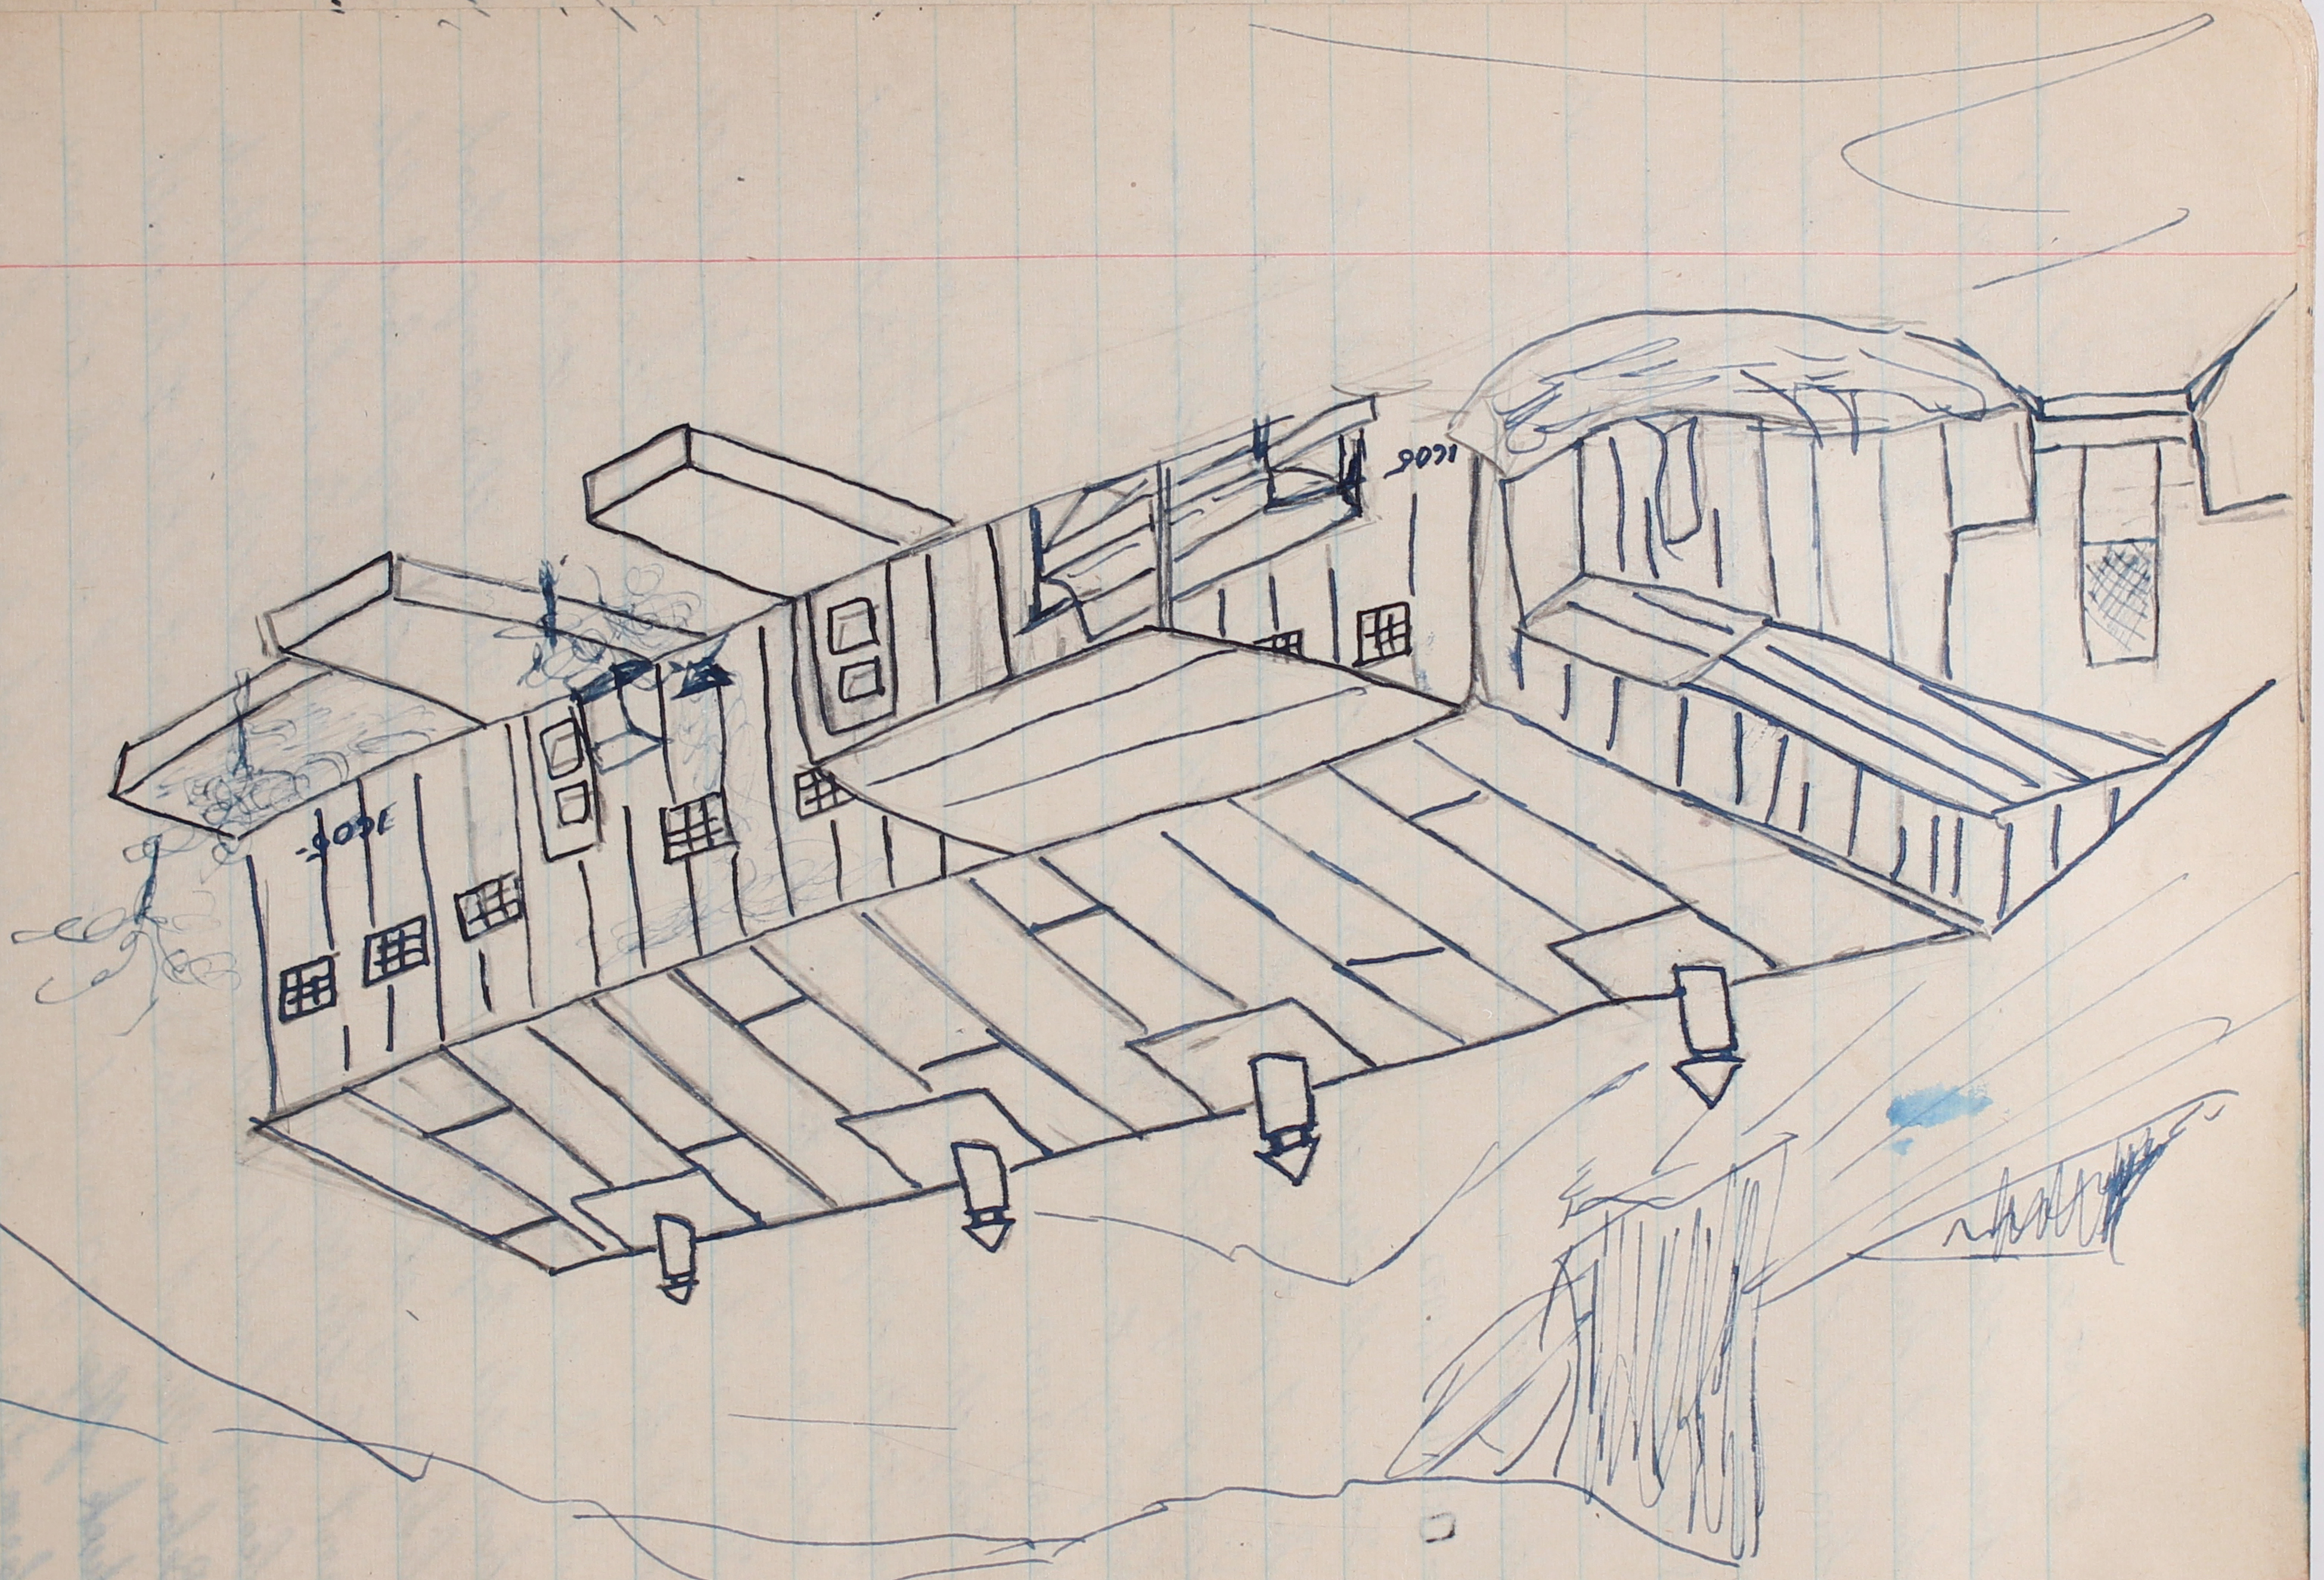
Today is the day the farm ask for the help of student to harvest potato because of labor shortage. I thought I was going but it is only 9th grade up. I think we are going to have tree week vacation.

february 9, 1943

Today the last day we are going school because thery are going Regestrate the people if they are loyal to United State or not.

Today I an going to climb the Castle Rock.

This Is wrote after I climb the moutain boy! yo boy! did the climb take long because I took the hard part to climb but certainly this was a climb. I could see town of Tule-lake from the top of the mountain. Then this camp look like army ~~Soldie~~ marching and the people look like ant. To the West I could see Mount Shasta which is beautyful with cloud hovering around the Mount Shasta. Below Mount Shasta I could see part of tule Lake with duck flying around. To the side of the lake thery was farm, this camp farm. The farm look big from here so I think it must be big.



June 16, 1943

Today it the last day to go school and I think lot of pupil are going out. At the end of the school term the school was very much, improve and they are starting to build the school which I think I'm going next semester that if it start. They are building gym. and is it big. because they surely got big frame.

July 16, 1943

Today I found from Tulean Dispatch that that the people who are loyal to loyal to United State is suppose to leave this camps and go anthor camps or relocate to some eastern plase. This camp is suppose to be Disloyal Camp. I am going to stay in this camp.

September 10, 1943

Today is my 1st day I went to farm and didn't do a work because I don't have work and there was no work. my Boss was Mr. Yada which live in this block. He told us that next monday we don't ~~m~~ have to come work.

September 15, 1943

Mr. Yada told me that I am to work on combine harvester (a machine to harvest wheat) for $16.00 sixteen dollar a month. The first time I rode it and I slept in the bed feeling seasick or something because I feel as if shaking something is shaking the bed sideway but afterward I got used ~~to~~ it. and incidently I only have to work 5 hour instead of 7 hour or 2 day work 1 day off but I work 5 hour work every day. The lunch and supper are better than at camp.

November 3, 1943

arriver of Mr. Myer (W.R.A. chief) at Ad. Building.

The time I went down there the army guys start getting ready for war or something. They were warming up tanks, truck, guns and soldies start marching around there place. Dr. Pedicord a Caasasuin Doctor, was hurt badly on the head. The solodies were guarding the main gate with camon on amared Car. They were lots and lots of people at the place I think there was about 3/4 of the camp population was there.

I think I stay there till about 30'clock and I felt like coming home early but there was a guard who wouldn't let us go home. I don't know the reason we went there but later on somebody told me that might before, somebody came to warehouse and stole some food which is use for gug at farm.

By the way there are some Japanese worker from other camps working at the farm. There are getting more pay than us when we work. There are some worker who was in this camp before.

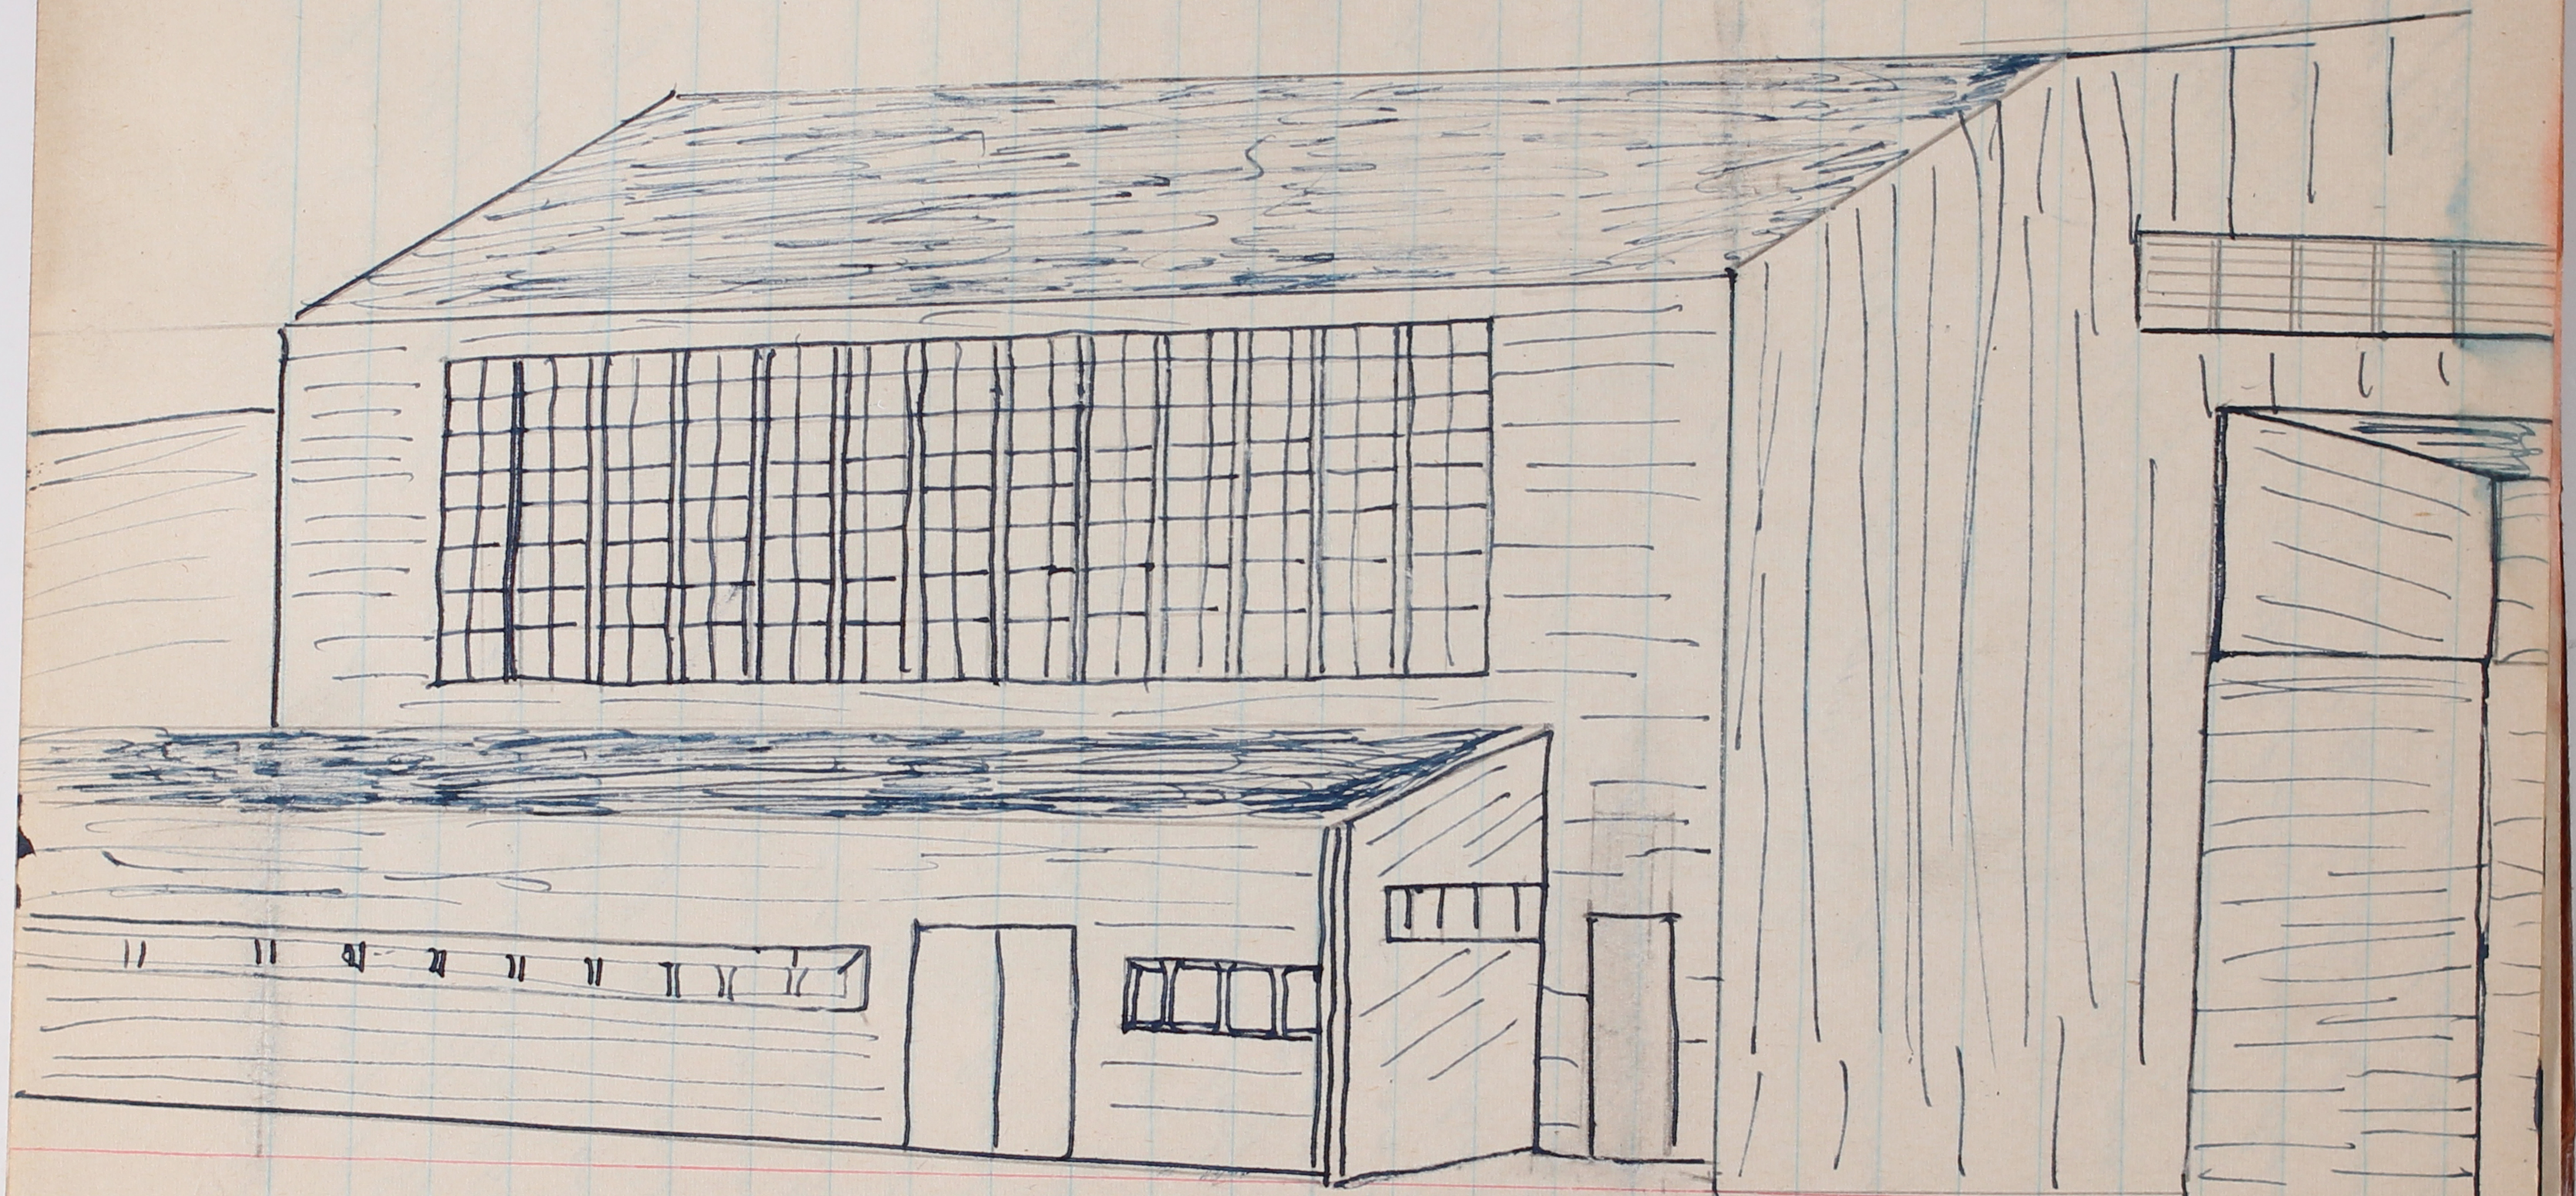
gymnasium



in the middle of the night. I think one tank went ~~out~~ our house stopping in front of out house. Just before we heard the tank we hard a past moving person trieing to run away, I guess from the tank.

Today my sis, who work at hospital didn't come home. I guess we can't go because between hospital there is soldies right in front of gym.

This moring the soldies start laying gas on groups of person to scatter. I think thery don't want no more group meeting. Thery ~~issues~~ are suning the camp now and the Cacasian people aren't suning this camp no more.

The army are suning this camp and the order are strict If we didn't follow it. it's storbage for us. or army jail for us.
