On our way to Pisa on one of the bus style trains.

Last night I dreamt people were being mean to me at a dinner party, but I realized we were in a dream and said something like "Strange place for a dinner party — in a bed!" And opened my eyes. I felt so vindicated.

I'm not so sure distraction is a good anxiety management technique. neither is coffee — what? That sounds like something more would say.

I am having so much trouble thinking clearly!

Europe is teaching me to let go of tiny inconveniences — and I can tell because bad is bothered by stuff that it would never occur to me to be bothered by. Like the seat in the train or little noises.

Figure Drawing includes many naked figures – % figure

I didn't ever really consider that, but at least in this class there's another guy – so I feel less like an interkeeping than I did when I tried to go to open drawing w/ (H) & Bryn. That was quite the time. I walked in, saw a naked 80% woman and a dozen girls confidently setting up easels, turning on my heel & sat on the street almost crying, trying to get my heart rate down & drawing the nice, neutral street. now 3 times a week for, I guess, 15 weeks. I'm gonna draw the same 80% woman.

coffee shops, like bars, are more fun if you bring friends. Phones aren't evil, but don't be afraid of your own thoughts. Your thoughts will not kill you. There's still some shitty chocolate americano left, so you have no where to go. Confidence is sexy, but it's hard to feel confident when you feel so alone. Therefore the next step is to practice being confidently alone.

I am not at ease with myself. Talking to strangers is a great high which is why I get drunk. Drunk fake or show off fake easily speaks. Introspective fake writes. Remember that your friends will reply if you text them, and they don't have eyes

Love - worth it?
Your friends - hitting on you or simply friendly

Can you ask your friends directly if they're hitting on you?

"Kami - Gretal keeps referring to your boyfriend, but when you tell me the same or adjacent stories you only call the figure your friend. Is there some reason you don't want me to think you have a boyfriend? Your pointed question about how many people I like at a given time leads me to believe you're poly, but you don't seem very sexual. Also when I called Montana cute as an example your face got stiff and your answer was unsteady and quiet. So do you have a crush on me or what."

Kirby put us on the wrong train
and we headed off to Pistoia

hitting on Haley & Kirby - we
Decided Haley was a sexy Banana
vs a pear & that Kirby likes
only bad things. I hoped my vaguely
masculine countenance would deter him
But it did not. We all learned the
word "Basta."

When we finally got to Pisa there
was little time before our flight to
sightsee so we ran past the Torre
Rendente and ~~[illegible]~~ ~~[illegible]~~ bussed to the
Airport where the 'Cheap Airline' charged us
to E each for late check in.

and I think Kirby should carry a little

w/ their sex lives. Haley - who ~~would~~

we talked of insecurity & vulnerability
And I tried not to pierce my foot on

can see people drinking.
At some point I ask, meekly,
if they have A "Tea?"
