

THERMOFILM INSTALLATION PLAN

To ensure the validity of your warranty please provide a layout plan of your **THERMOFILM** underfloor heating installation. ThermoSoft has provided an example (next page) and a checklist to ensure this procedure is carried out correctly.

This sketch should be left next to the main power panel of the heating system together with thermostat user instructions, warranty certificate, original sales receipt and supplied sticker (see opposite) for the main power panel to alert users of the installation. A second sticker should be placed in the room installed with the **THERMOFILM** heating system.

WARNING

Risk of electric shock. Electric wiring and heating panels contained below the floor. Do not penetrate with nails, screws, or similar devices.

Fix this label to the main panel.

Part 1 - To be completed by the installer

What are the room dimensions? _____ What is the heated area? _____

Have you marked the position of the junction box on the sketch? _____

Have you marked the position of the thermostat box on the sketch? _____

Have you marked the position of the floor probe on the sketch? _____

Part 2 – To be completed by the electrician

What is the measured resistance of the installed THERMOFILM elements (Ohms)?

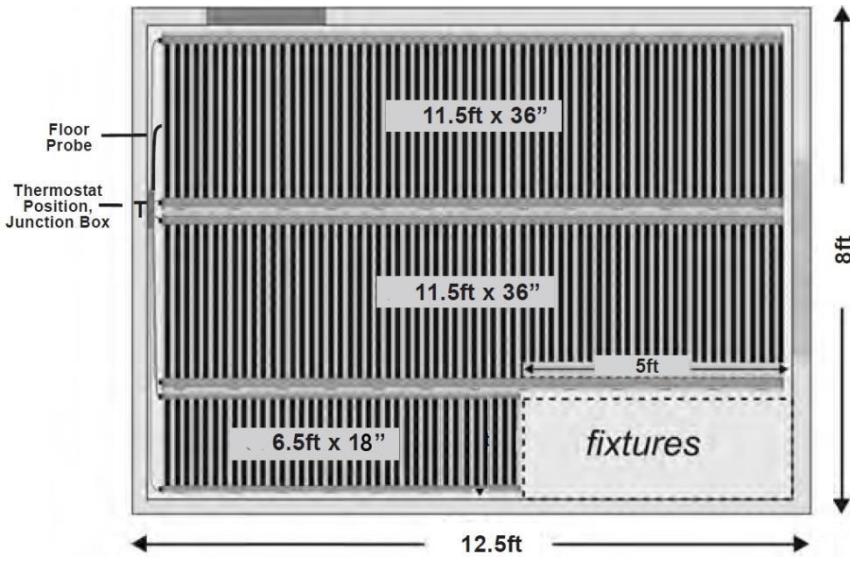

SKU# _____	SKU# _____	SKU# _____	SKU# _____
_____ Ω	_____ Ω	_____ Ω	_____ Ω

What is the total power of the installation (W) _____ W

Circuit Voltage: _____ (V). What is the GFCI rating (mA)

Rated Voltage of the elements _____ (V).

THERMOFILM® – The complete underfloor heating solution for all wood & laminate floors.

Please retain a detailed layout plan using the example to the left as a guide.

Take care to show the following:

- Lengths installed
- Thermostat position
- Junction box position
- Floor probe position
- Any fixed furniture/fittings
- Room dimensions

WARRANTY CERTIFICATE

THERMOFILM®
Underfloor heating film

**10 Year
Warranty**

This warranty is only valid under the following conditions:

- All electrical connections were carried out by a qualified electrician.
- The warranty covers faults in material for 10 years for **THERMOFILM** from the date of purchase.
- The completed warranty and proof of purchase must be presented in connection with warranty claims.
- The **THERMOFILM** installation plan has been completed by the installer and the electrician.
- The warranty covers the repair/replacement of floor heating goods found to be faulty due to manufacturing defect and does not cover secondary charges relating to the repair/replacement of any floor covering.
- The Thermosoft International Corporation warranty does not cover faults resulting from installation or damage caused by others.

Please complete this installation completion certificate and retain a copy to validate the warranty.
