Overview

The APA Sourcebook is a special benefit for APA photographers at the Leader or Professional membership level.

Each qualifying APA photographer receives a single free page featuring one image. Your name, website address will be printed with your image. This year we are adding the option of including a location.

The APA Sourcebook is sent to art buyers/producers at ad agencies, and editorial photo editors, across the country.

There is no charge to the eligible photographers.

Photographers may upgrade to a double page spread, featuring one or two images on the spread, for just \$500.

You can **download a PDF of the 2021 Sourcebook** (14.5 MB).

Image Size Selection

Before selecting and preparing an image from your photo library for submission you'll need to decide the size ad you will be running.

We have **two options**:

- 1. Single Page (Free). The single page Photoshop template download is on page 6.
- 2. Double Page Spread (\$500). If you will be upgrading to a two page spread you have the choice betweeen two layout options (see page 6).

File Preparation

Output your hero image as a full resolution JPEG in the sRGB Color Space Profile as illustrated below from Capture One (use same settings in Lightroom). Then place and crop/resize your image in one of our Photoshop templates available for download on the following page.
