

Since 1981, American Photographic Artists members have included some of commercial photography's most accomplished and sought-after photographers. Throughout that history, our network has extended to include decision-makers in the industry – photo editors, representatives, and producers worldwide. Our annual Sourcebook showcases our members' talents in specialties ranging from food, beauty, and lifestyle to industrial, architecture, and more.

By spending time with our 2023 Sourcebook, you'll experience the vast array of imagery and diverse expertise that is the cornerstone of our organization. We hope this collection of photographer members' work will remind you why we came to this business in the first place – **for the love of photography.**

If you'd like to see more of our photographers' work, go to their web address below the image. When you need help finding a great photographer by geographic location or specialty, please visit [apanational.org/hire-apa-pro](http://apanational.org/hire-apa-pro) for a quick and easy search.

We hope you enjoy this 2023 edition of the APA Sourcebook. It may be our finest yet!
