

## Kubernetes Backup

Safeguard your Kubernetes workloads and persistent volumes for speedy restores with minimized downtime.

### Solution Overview

For fast-paced Kubernetes environments where applications are continuously deployed and decommissioned, Backblaze B2 offers you a backup storage safety net that's always ready to help you restore your Kubernetes-managed data. It supports easy off-site cloud backups of everything from control plane and etcd data to configuration and persistent volume data. The S3 compatible service works seamlessly with leading Kubernetes backup solutions as your reliable Plan B when disaster, misconfiguration, or human error happens.

### Top Benefits

- **Easy to use:** Get started in minutes and save time ongoing; fully integrated with leading container backup tools.
- **Readily Accessible:** 99.9% uptime SLA for restores as needed without cold delays.
- **Safe & Secure:** Rest easy on storage designed to offer 11 nines of durability and enterprise-grade data protections.
- **Cost Effective:** Always hot at 1/3 the cost of AWS S3, including free egress up to 3x your monthly storage amount.

“With Backblaze, we've been able to reduce our storage costs by 80% and our overall infrastructure costs by 65%.

—Damian Gadziak, Founder & CTO, DevChain

### Works With

## How It Works

Backblaze B2 for Kubernetes backup works with the top container backup applications including **Kasten, HYCU, Cloudcasa, Commvault, Rubrik, and Cohesity**. Many customers choose to get started on their own in minutes; Sales and Solution Engineering teams are also happy to help.

- **Create a B2 Cloud Storage Account:** 10GB free so you can run a risk-free proof of concept.
- **Connect Backup Software:** In your existing application, designate Backblaze B2 as your storage target—it's easy with Backblaze [integration guides](#).
- **Start Backing Up:** Refine your settings to suit your needs, and you're ready to go. You can make changes at any time.

### Pricing

**20TB+ bundles starting  
\$1,560/Year**

or

**\$6/TB/Month**

Choose Backblaze B2 Reserve for capacity bundles including data migration, implementation support, and premium customer support. Or pay-as-you-go hot storage at \$6/TB/month.

Either way you buy, enjoy free egress up to 3x your storage average; additional egress is \$0.01/GB. No complicated tiers; no minimum storage duration.
