Backblaze

HYCU®

HYCU and Backblaze B2 Cloud Storage

Comprehensive, affordable data protection and storage for your entire data estate without complexity.

HYCU + Backblaze Solution Overview

Backblaze and HYCU, the fastest-growing leader in multi-cloud data protection as a service (DPaaS), have partnered together to provide you a complete backup solution for modern workloads with low-cost scalable infrastructure—a must-have for modern cyber resilience needs. By combining HYCU data protection with Backblaze B2 Storage Cloud, you can see up to 80% lower costs in comparison to using hyperscaler storage, which means that combining the two can be a force multiplier for your businesses' ability to fully protect your data and scale efficiently and reliably.

Top Benefits

- Instant access to your data whenever and wherever you need it, with 99.9% uptime service level agreement (SLA) and no cold delays or speed premiums.

- Reduce your total cost of ownership by switching backup tiers with interoperable S3 compatible storage.

- Protect backups from ransomware, plus satisfy evolving cyber insurance requirements with an additional layer of security by implementing Object Lock for data immutability.

Simple
Effortless end-to-end backup solution.

Affordable
Recover exactly what you need, when you need it—no egress fees.

Secure
Reliable and secure server backup.

Backblaze **HYCU®**

Data Anywhere, Protected Everywhere. Plus, Easy Cloud Storage.

Simple, reliable ransomware protection with HYCU and Backblaze B2 Cloud Storage.
Within HYCU's DPaaS platform, you can now select Backblaze B2 Cloud Storage—an S3 compatible object storage platform that provides highly durable, instantly available hot storage—as a destination for your HYCU backups. Together, it is a powerful new data protection option for when you are looking to affordably back up your data and establish a disaster recovery strategy.
