

Backblaze Computer Backup

Get peace of mind knowing your files are backed up securely in the cloud.

The World's Easiest Cloud Backup

Backblaze Computer Backup automatically backs up data from laptops and desktops for businesses and individuals. With unlimited computer backup, the service will automatically back up all your files including documents, photos, contracts, music, movies, and more. It's that easy.

Personal and Business Backup

- Back up all your personal and business data
- Easily monitor your business data through a centrally-managed admin
- Enterprise Control add-on for greater administrative control
- Unlimited, secure, off-site backup

Restore and Access

- Download files for free from the web
- Have data shipped on an external drive for additional speed with large datasets and/or low local bandwidth
- Access files through the web or mobile app
- Extend file version history from 30 days or One Year to Forever

Secure Data Storage

- Private encryption keys
- All files stored and transmitted encrypted
- No Java—Backblaze's code is native to Mac and PC
- Two-factor verification available for all Backblaze accounts

“After years of testing, we think Backblaze is the easiest to use and the best cloud backup service.”

— Wirecutter

Get Started With Computer Backup

- Go to www.backblaze.com/backup.
- Create an account—no credit card required.
- Install the Backblaze app. Your computer will automatically back up.

Add Groups to Administer Users

- Go to www.backblaze.com/backup and sign into your account.
- Create as many Groups as you need and invite Group members.
- Computers will back up automatically, and you can manage your organization’s data, assign roles with different access levels, set up billing, and more—all from one convenient, central admin.

Priced From
\$9/Month
Per Computer

All Backblaze accounts include unlimited data storage, industry-leading security protocols, and 30-day version history for \$9/month per computer. Extend your version history to one year for free or increase your version history to forever for a small fee.
