

Mr. Frank Hagan -

I noticed you are cutting down workers from the large family and not cutting any from couples family. THAT IS NOT FAIR. THE couples don't have expense like the large family so the couples shouldn't work. I've checked it up and noticed that every mess halls have too many couples family working. IF they were all cut off then lots of the block people that's out of work could get the job. in THAT way the family where no one is working could get the job then THAT family could get clothing allowance for the family.

we had a meeting concerning to this and everybody was in favor of having all the couples family that's been working should have there jobs cut off immediately. If not we will take step ~~to~~ so THAT they will be. course we don't want to start any trouble but if we aren't treated alike we will ~~start~~ trouble. we will see how soon you tend to this matter.
