Dear Frank,

The Nisei would be nowhere without you (and Michi, natch). Thanks for giving dignity to the downtrodden, the resisters whose fear you've helped to break. They're coming out of the woodwork now, largely because of YOUR efforts!

And thanks for making clear to all Nikkei the distinction between real and "fake history", as you put it.

You, Sammy and Dana have a super summer, OK?

Love and admiration,
