

January 11, 1988

Dear Frank,

It was great to talk to you again the other evening. Hope you're enjoying to the hilt your new assignment!

Walter and I are still feeling like icicles and we're shivering away in this damn unheated apartment. The bedroom was registering a bone-chilling 35 degrees for a couple of days; today it shot up to 45. The super's wife caught pneumonia and is now in the hospital. He just called to advise us that we might get some relief tomorrow. Wish us luck.

I called Hohri. He was delighted to learn of your temporary move to Norman. Someone there (in AA Studies, I believe) is after William to present a lecture at the U. of Oklahoma.

By the way, did you get through to Gail and Steve regarding possibility of honoring William with lecture series established in his name?

Enclosed are promised copies of William's MOSES critiques. I read for William's benefit your list of recommended media sources to contact. He agreed to send copy right away to Bill Wong of Oakland Trib. And he told me that he already sent the Chicago Trib. a copy. Your list did help to make him think of papers he forgot to contact.

I'm asking Violet to send copies to a couple of major papers in Tokyo. Vi says the book is already being promoted there. I've sent a copy to the New Canadian in Toronto. Moses recently lectured there, I'm told.

Along with two copies of the Uyeda article, I send the Hosokawa contribution to the recent Holiday issue*, as this one is as offensive as hell.

Looking forward to your visit! Walter sends love and cheers with mine.

M. J. C.
