Dear Frank,

Got a ton of stuff, the biblis, from Shawn. Since you're working in tandem, I'm enclosing a few relevant pages directly FYI, so you can start editing as well.

Had a long talk with Aiko last night. Poor angel is drowned in mail (same st. chez Weglyn) since she and Jack were away for a month or longer. ~~Shawn~~ she's expecting house guests so she's working furiously. She hadn't the chance yet to go over the queries (in <sup>response</sup> to the biblis I sent her) and was floored by the parcel from Shawn. She leaves for LA next Wednesday (29th), so she's limited in what she hopes to accomplish. (Bad timing, <sup>on Bill's</sup>)

She asked that I counsel you to use NA RG 210 minus all the Cox members et al in most cases, since documents get shifted around in time by archivists and specific box numbers become misleading. So, when in question, she says, use simply: NA R-G.210 where all the WRA and CWIC documents are held.

Enough for today. More to follow. Hugs for your Dana and Sammy! Michie Aiko will be staying with Wanda and Lisa

\* However, we managed to get quite a few questions resolved over phone
