Dear Frank,

Came across enclosed Nicholson letter to me. Kido must be mentioned in it!
INTERVIEW OF BENDETSSEN taken from Truman Library. What do you make of his
braggadocio boasting of his arriving at George Marshall's office a day too late
(or some such) to transmit Admiral Kimmel's fear that Pearl attack was imminent?
Were that a fact, all historians would have to revise their sneak attack slant
on history. Good for a laugh. Now that hairbrain is advising Reagan....on 100%
foolproof, quality controlled, hairpin precision in shooting down millions, billions,
trillions of incoming missiles.

~~XXXXXXXXXXXXXXXXXX~~

What about including that hunchback's book, can't recall the book title but the
author, HOMER LEA, did a hell of a job scaring Stimson, who saw the fulfilment of
others
prophecy in the calamity of Pearl and ~~XXXXX~~ that followed.

Have so many letters to send off before departure. Sent Aiko and Jack some
copied pages from the batch you sent me. Hope they'll be in a position to help
where I couldn't.

Gotta run, friend. Say "hi" to Dana and little Sammy--how about an updated photo?
Walter joins me in sending love.

Banzai!

Michi
