

Hi Frank, Dana, Sam / top hip hooray! Dec 3/92

It knocked us over to see great tribute paid
you in N.Y. Times, Frank, that's class! We're
damn proud of you and will be spreading the word.

Enclosed is mind-blower of a historical
volume. Do you know Prof. Stannard, companion of
that magnificent native Hawaiian activist (Head
of Hawaii Studies, U. of Hawaii) Haunani Kay,
Trash? Richard Drinnon sent me this copy (which I'd love to read
from cover to cover, but haven't had the time - but to read selective
parts) which I want you to evaluate, as I truly feel that it deserves
recognition from the Columbus Foundation. Drinnon writes: "I was
waiting for the publication of a review [of "America's Holocaust"] so I
could send you a copy." believe it or not, the peddling thing
still has not come out"! Outrageous. Obviously, they're trying to
kill it by ignoring this important work of meticulous research. What's
the latest rules for entering a 1992 work such as this, Can it be
entered for the 1993 prize? Do hope you can help me with what
& consider a worthy cause. Drop me a quickie note if there's a possibility, Love
you, Michi
