Niseis Problems Today

“What would become of us?” “Where is our future?” “What is in store for us?” “Who would win this war?” Question after questions, wondering and inquiring in our minds, questions asked to the people who are said to have magic, asked to the superstitious mind, asked to the Lord above. But where and who knows these endless questions? Rumors! Rumors! Nothing but rumors are all we get. I heard this, I heard that. She said this, he said that. Nobody knowing the real answers, but hating to admit it, so starts a rumor. But does that solve our problems? Definitely no!

We are said to be, “the people without a country.” That, I think, is all a matter of personal opinion. Our opinion, as well as the Caucasian and the iseis. I too, have formed my personal opinion, but it is, but a prediction. Our problems today, can only be solved by you!! From your own place, and if theres a will, theres a way. What do you think? Our problems are great, I known, but aren’t all problems seem greater than what they really are? I know we can do it, so late have a will and we’ll have it solved.
