

June 26, 1945  
Vicenza, Italy

Dear Dad,

How are you and every  
one back home? Hope this  
letter finds you all in  
best of health. As for  
me I'm always in best  
of my health so don't  
worry about me.

I imagine it is very  
hot & sultry in Rome  
now so please take good  
care of your health and  
use plenty of salt to  
prevent heat-fogues we  
are doing here.

I heard from one of my

9  
correspondence that Bon Adori  
practice has begun in  
Rohwer. I remember very  
well from previous years  
that I used to watch  
the Centerites practice the  
Adori. I imagine there aren't  
very many participants this  
year since a lot of young  
folks have either relocated  
or have been drafted as the  
case with boys. At any rate  
whether large or small it  
will be a very colorful event  
for you folks.

I heard that Aymer son  
has returned from Chicago

5) and liked the vacation  
very well. Please give  
her my best regards and  
inform her that I shall  
write to her soon.

Today we were informed  
that student for M.S.  
is greatly in need by  
the Government and volunteers  
were asked. I don't know  
what the quota is but  
I doubt that ~~the~~ it will  
be filled. For boys who  
know Japanese very well  
have a chance to go back  
home soon and spend  
a 45 days furlough at home

(H)  
and after his furlough  
is over to report to Ft.  
Snelling and take it  
easy until school begins  
which is in October some-  
time. They are asking for  
certain amount of volunteers  
and if the quota is not  
filled they will liable  
to make it compulsory.

I shall close now  
and have this letter on its  
way. Please don't worry about  
me and take great care of  
yourselves too.

Your son  
Makoto
