

CENTER'S INITIAL PAY DAY DUE SOON

Pay day at Santa Anita came a step closer to reality when the first pay roll for Center workers was sent to San Francisco yesterday by Henry E. Scofield, Finance division head, it was disclosed today.

The first pay roll was for the fiscal month ending April 15. The date of receipt of pay checks was held to be indefinite by the division.

The checks on arrival will be delivered by Center Cashier Clyde Lambourne to all those entitled to first checks.

The second pay roll, for the fiscal month between April 15 and May 15, is now being completed.

"Receipt of checks at the Center will be given due publicity," Scofield promised.

A total of 1239 persons are listed on the first pay roll. It will be much smaller than subsequent payments as it includes only those who were employed between the time the Center opened, April 3, and April 15, a total of 12 days.

The second pay roll will be more than double the first, it was predicted, because of the larger number of persons employed and the longer period of employment.

PUPILS TO GET CREDITS

Students from Los Angeles or San Diego counties who have been worrying about receiving credit for the current semester's work towards graduation were assured today by the Education department that arrangements are being made with their former schools.

Those who attended schools in either San Diego city or county will be required to report their names and other necessary information to the school registration desk in the Recreation hall tomorrow.

Mauch Says

Residents Buy \$5000 in Bonds

Approximately \$5000 worth of War bonds and \$100 in War Saving stamps have been purchased at the Santa Anita post office up to the present date, Postmaster Leo Mauch stated today.

These purchases, made by Center residents without any present source of income, was commended by observers as being indicative of the loyalty of Santa Anita residents to the United States.

Self-Assembly

SECTIONAL HEADS HOLD FIRST MEET

The first official meeting of the newly elected Sectional representatives from 49 sections within the Santa Anita Assembly center was held in the Government house Wednesday afternoon.

Guy E. Wilkinson, Personnel relations officer, addressed the Sectional representatives with a welcoming speech. He called to the members' attention the signal honor that had been bestowed upon them by the people of the Center.

He further urged all Sectional representatives from each district to weigh carefully the personality and ability of members of their group and to consider their background and experience prior to voting for one of them as the District councilman.

The results of this vote were to be turned in to the Government house by tonight.

DANCE BAND MAKES DEBUT

With the Center's administrative officers as guests of honor, the Starlight Serenaders will make their debut at the weekly dance tomorrow, 7 to 9 p.m.

The tile area in front of the Grandstand will be the locale for the dance.

Only couples and their parents will be permitted to attend the affair. They are asked by G. W. Fitzpatrick, supervisor in charge to be careful of the camouflage nets.

Center Manager Thanks Workers

Production of camouflage nets for the Army has been materially stepped up in the past few days, according to H. R. Amory, Center manager, who announced that 1242 citizen-residents were

As its contribution to the National war program, the editorial staff of the PACEMAKER, in addition to its regular duties, voluntarily offers to work every Saturday without pay on the camouflage net project.

This project is the only means of direct participation in the war program open to Center residents who are citizens. Every one should do his bit to make it a success.

We Honor Our Flag, Our Hero

"I pledge allegiance to the flag of the United States of America,

And to the Republic for which it stands,

One Nation, indivisible,
With liberty and justice for all."

against the forces of the fascist enemies are to be honored on Flag day Sunday.

We are denied an active roll in this struggle but we, Americans, join other Americans in honoring our heroes and our flag and our allies' flags.

The American hero is our hero.

The American flag is our flag.

Man, 65, Always First in Line At Yellow Mess. Wins Fame and Job

An outstanding claimant of the Center's standing-in-line championship is 65-year-old Kajiro Okumura, B-8 U-1 S-10.

Okumura has been first in line at the Yellow mess since it opened May 5. He hasn't missed a meal.

For his astounding feat the champ has been awarded the position of official gong ringer and door unlocker by the Yellow mess checkers.

Okumura says the secret of his success is the fact that he always arrives about a half hour early. He has discovered that he has fewer rivals at breakfast than at other meals. --by Betty Kanameishi.

Softball Meeting

One representative of each A and B Twilight softball team is to be present at the Recreation office Tuesday evening at 8 p.m.

New teams wishing to enter either league are also invited to send a delegate to this meeting.

Tomorrow is MacArthur day.

Sunday is Flag day.

It is no mere coincidence that these two days fall in the same weekend.

Gen. Douglas MacArthur, Supreme commander of the United Nations' forces in the Southwest Pacific, is a man catapulted out of this great struggle to become the symbol of The Hero of this war.

And by Presidential proclamation, all the flags of every democratic nation allied in the great struggle

Our leg-man supreme, and window-washer in his spare time, whose only bid to fame previously had been for smashing across the goal line last year with Poly's only touchdown against Marshall high, now throws his weight around the PACEMAKER office.

However, that the editors have put him to washing windows and emptying out the waste basket is no fault of his, nor does he deserve all the evil words flung at him by the staff. It's all because of his name which happens to be Hiro Ito.

NOT A THING TO WEAR

The use of calcium chloride to wet down the dusty streets has proved a little disturbing to our choice of wearing apparel for the day.

We used to look out the window and when the streets looked wet, we would don our bearskin jacket.

Now, the street looks wet all the time.

SPEEDY RECOVERY

We hear that Seabiscuit has a fever of 104 degrees. To him goes our best wishes and hope for a quick return to good health. We'd like to see him romp around the Santa Anita track once more.

DAMN CLEVER

We're sorry to have missed the Handicraft show, which was full of things Crusoe (Robinson, not Saburo) would have been proud of.

Blue Mess Hall Seats 850 and Serves 11,000 Daily

The mess hall with the smallest seating capacity, the Blue, serves the greatest number of "customers," said Al Fields, Mess division superintendent, today.

Opening on April 3, coincident with the opening of the Center, it has been in operation longer than

any other mess hall.

Despite a seating capacity of 850, the Blue mess serves 11,000 meals daily. Every quarter-of-an-hour, 600 people go through the doors. This is at the rate of 40 a minute.

Much of its success, Al Fields said, is due to the

smooth teamwork among the crew members.

"But every mess hall crew is cooperating to the fullest degree," Fields added.

"The success of every mess hall depends on the cooperation not only within the crew but also of the people who eat there."

"The spirit of the workers is excellent," Amory stated, "and the management is very gratified at the response to its appeal for full cooperation on this vitally important war work. We've tackled a big job--let's make good on it."

It is anticipated, according to Amory, that the force of workers will shortly be doubled. Volunteers who are American citizens should contact the personnel office, he said.

CAMP GRANT THIRD SACKER HITTING .500

Joe's 'Traps' Add Extra Oomph

A boogie woogie recording with a little extra "oomph" emanated from the electric shop and stopped several music lovers on their way to the regular concert Sunday evening.

The more curious, who investigated the source of the extra oomph, discovered a drummer banging away on a home-made set of drums.

The set consisted of a

salvaged wash tub, a large grease can, a group of small cans, and two tin plates.

Joe Shimada, unable to send for his set at home, and missing his daily habit of taking it out on the skins, has assembled the pieces, including a clever foot pedal for the bass tub.

Before his enlistment in the Army eight months ago, the 180-pound nisei youth was an athletic star at Roosevelt high school in Los Angeles and at Los Angeles City college.
