AMORY EXPLAINS CAMOUFLAGE PROBLEMS TO NET WORKERS

1200 WORKERS TO GET PAID

Full Consideration Promised for Legitimate Grievances in Talk

Tomorrow, beginning at 1:30 p.m., checks for the first pay roll will be distributed from the Main Gate ticket window near the Center post office, it was announced today by Henry E. Scofield, Finance and Record section director.

It was emphasized by Scofield that the first checks apply only to the period between April 3 and April 15.

Since only one day is allowed for distribution of checks, all those expecting them must make their claims between 1:30 to 5 p.m. tomorrow in keeping with Treasury regulations.

Regular closing time is 5 p.m., but it will be extended if necessary, it was stated.

To obtain checks, workers must present proper

Legitimate grievances of camouflage net workers will be considered and remedies made if necessary, assured H. Russell Amory, Center manager, speaking before a special meeting of camouflage net workers yesterday morning in front of the Grandstand.

Amory explained that the order from the Army for camouflage nets had come suddenly and the project had to be started with large numbers of people almost overnight.

"Only American citizens can work on the project," he said. "The labor supply was limited to Japanese Americans so we had to scrape the barrel to get the necessary workers."

He pointed out that allegations of "blacklisting" and "drafting" were unfounded, and probably arose from the fact that assignments on certain projects had been closed.

"If, when the net project had started, we had had a work pool available of several thousand workers,

the above allegations and rumors would probably never have been started," he said.

"There is no compulsion in the matter and there are no penalties for refusing to work or leaving the job."

On the question of food, Amory assured workers that "any legitimate complaints in regard to the lack of food will be given full consideration."

He stated that after making representation to au-

Publication Dates Changed

Beginning with the next issue, the PACEMAKER will be published on Wednesdays and Saturdays.

This change in publication dates is necessitated by the growth of the PACEMAKER into a six-page semi-

weekly.

While this increases both the material cost and production problems, the former four pages were never sufficient to cover even a fraction of Center activities.

Father of Fourteen Children Honored This Sunday

Special recognition on Sunday, Father's Day, is due to Iwajiro Tanouye, 59, who has sired 14 children; seven boys and seven girls.

Mr. and Mrs. Tanouye and their family occupy two large units at B-31 A-N.

Oldest of the Tanouye tribe is 28-year-old Mark, who is serving with the U.S. Army. The baby of the family is Aiko, 11.

In between are Harry, George, Yasuo, Jimmy, Bill, Haruko, Joe, Chiyo, Michiko and Masako, who live at

the Center, Nobuko who is in Hawaii, and Mrs. Hideko Tanouye Sakamoto who lives in Reedley.

One of the weightiest problems in having so many children, say the Tanouyes, is naming them.--by Matsu-yo Uyeno.

Weekly Airings In Center Set

"Residents are cooperating splendidly in the matter of sanitary inspections," said Alan A. Alexander, Housing section head, today.

Blankets and mattresses are to be aired weekly, according to the schedule published in the PACEMAKER, Alexander stated.

Beginning tomorrow, changes of straw in ticks will be required every two weeks. Straw will be provided on alternating Saturdays throughout the areas in which ticks are used.

Under the sanitary plan ticks must be washed once a month, Alexander said.

He commented favorably on the cleanliness of the barracks which were inspected this week for the first time.

Girls Plan for Recognition Day

Plans for Recognition day ceremonies will be furthered at a meeting of the Girls' Club Presidents' council Sunday, 2 p.m., at the Girls' Club office.

Sunday, June 22, has been set aside for the ceremonies at which more than 20 clubs will be formally recognized. Clubs wishing to participate in the program may send a representative to the meeting.

Alice Suzuki, coordinator of girls' activities, is directing the preparations.

HE-MEN START MONDAY ON BEARD-GROWING RACE

"It's the ultimate test of masculinity," claims the Adult Activities division of the Recreation department, in announcing its Whiskering which begins on Monday.

The beard-growing contest will be split into two classes; one for those who have already sprouted beards and the other for those who wish to start from scratch.

The contestants have a week and a half to nurture, fertilize and trim their whiskers. Prizes will be awarded for the bushiest beard, the scraggiest beard and best-trimmed beard at the variety revue on July 3.

He-men are to sign up at the Adult Activities office in the Grandstand building on Monday. Class I entrants may come bearded but Class II hopefuls must be clean-shaven when they register.

Airplane Model Builders Compete In Senior ROG Contest Sunday

The Center's airplane model builders were today called to enter the senior ROG (rise-off-ground) contest Sunday, 6 p.m., at the Anita Chiquita field.

The planes entered must have a 10-inch motor stick and seven-inch maximum propeller. The winner receives the pot donated by the entrants.

Each entry will have two ROG and one hand-launched flight. One delayed flight

will be allowed.

Tommy Uragami has been named chairman of the contest with Tommy Satow assisting.

Officials are Marshall Sumida, Lens Aarakami, Hideo Sechi, Jo Sugi, Calvin Okagaki, Bill Mambo and Fudo Takagi.

Officers of the model airplane club will be elected at the next meeting, Monday, 6:30 p.m., in the Handicraft room.

NEW VISITING PLAN MADE

Visitor's House Opens June 24

In conjunction with the opening of Visitor's house next Wednesday, regulations governing official permits to see visitors were issued today in Administrative Notice No. 11 over the signature of H. Russell Amory, Center manager.

Residents of District IV will be the first to make use of the new Visitor's house when it opens Wednesday. They must apply to the Information office for their permits today in order to see visitors on that day.

According to the schedule, Districts V, VI, and VII will have Thursday, Friday and Saturday, respectively, of next week to see visitors.

The schedule will be rotated so that each district will have one Sunday every seven weeks.

Visiting hours have been lengthened from two to three hours, 1 to 4 p.m. daily. No visitors will be permitted before 1 p.m. on any day, however.

Visits of one-half hour period each are permitted under the regulations. The capacity of Visitor's house at any one time is approximately 150 persons.

Special Kitchen To Start Soon

Because plans for the special diet kitchen have been completed, individuals who require special diets for medical reasons are to report to Dr. Norman Kobayashi for authorization and registration 9 to 11 a.m. tomorrow at the Immunization clinic.

Registrants who were on medical diets before induction, are requested to bring statements from their family physician citing the nature of their requirements, if possible.

Special diets are planned for persons with diabetes, high blood pressure, stomach ulcers, heart and kidney diseases and food allergy. Fat-free diets will also be provided.

All Center artists were encouraged to participate in the War Poster contest, which offers prizes of \$525 in War Bonds, by the Artists and Writers club at their meeting Tuesday.

For further information, concerning rules and materials, prospective contestants are asked to come to the FACEMAKER office, the club's temporary clearing house.

on the project, they can be excused," he stated.

In reference to a pamphlet urging the workers to strike, Amory said, "In time of war in a combat area, anyone found agitating is subject to fine and imprisonment. Any agitation from now on will not be tolerated.

"A very small portion of the workers wanted to go on strike," said Amory. "Judging from the numbers produced, production of the nets has been very satisfactory.

"This project is part of the war effort. The American Army needs these nets quickly. There is absolutely no exploitation of Japanese labor by private interests.

"Rumor-mongers are destructive and may well be subversive," he said. "All rumors should be brought to the immediate attention of your District information offices for checking."

Amory explained that the Los Angeles Public Health department had made a survey in regard to the camouflage net work and has found that no serious health hazard exists. He assured that workers with hay fever or asthma can be excused from this work by release from a doctor.

In concluding his talk, he suggested the formation of workers' committees, one for the men, and one for the women, which will present any grievances or demands of the workers.

He assured his audience that all reasonable complaints would be studied with a view to a satisfactory solution.

Amory thanked residents for their cooperation since the inception of the Center and asked that it be continued.

Camouflage net workers will be guests of honor at tomorrow evening's community dance in front of the Grandstand.

PACEMAKER BUILDING -- Phone: 63

We feel that the following bit of Blue mess philosophy is worth passing on. Ben Carey, chef at this hall, says, 'A good place to find a helping hand is at the end of your arm.'

SWEET TALK

The strict rationing of sugar to two teaspoons a day at breakfast, while it may have eased dieting problems among the over-plump, finds us gnawing our nails in perplexity.

We like two cupscawfee for breakfast, which still isn't too hard to figure out since we take the first one unsweetened to wake up on, and one spoon of sugar goes on the cereal.

But how does one divide two spoons of sugar among one grapefruit, one cereal, and two cupscawfee?

REPRINT

John D. Barry, San Francisco News columnist, in his 'Ways of the World' writes:

'As I read the PACEMAKER I catch myself making an ancient discovery. How like these Japanese are to ourselves! As the American writer, Ida Tarbell, used to say, the differences among people aren't nearly so important as the resemblances.'

KEEP OFF THE GRASS

Typographical errors are the bane of all editors but sometimes amusing to the reader. One in the Pacific Citizen reads: 'Toyo Matayoshi and Pete Miyashiro were married in the first Santa Anita wedding ceremony.....'

WHEW

A girl's softball team at Walerga, in their three games to date, mopped up one team 34-7, another 70-10, and led 65-0 at the third inning in the third game when the other team tired. (Which team?)

SIDEWALK SUPERINTENDENTS

Members of the International Order of Steam Shovel Watchers and Excavation Experts, Santa Anita chapter, were seen in force at the recent operations near the laundry.

New York Nisei in USO Drive

Japanese Americans of New York City are cooperating with the Greater New York USO Campaign committee in order to help raise money for the National USO campaign which ends on July 4.

For the particular function of mobilizing the members of New York City to the fullest extent in the campaign, they have been authorized to form the Division of Japanese Americans, under the chairmanship of Yoshitaka Takagi. Its New York address is 1133 Broadway.

"We feel that as Japanese Americans....we must.... participate in every phase of the life of the entire American community. And in respect to this campaign, we think that the Japanese Americans from the West Coast would also be interested in actively joining with us in making contributions to the USO," Takagi says.

There are more than four thousand Americans of Japanese extraction wearing the uniform of the United States army, serving shoulder to shoulder with other Americans--America's fighting men, all, fighting for the survival of democracy in this global war, not duped by the fascist hoax of superiority of a race.

The nisei soldier is not fighting this war solely for the Japanese Americans; neither are the non-nisei soldiers fighting solely for the non-Japanese Americans.

This is a war in which all on democracy's side are fighting to defeat the fascist forces, to preserve all of democracy's beliefs and believers from the bestial inhumanities and the Dark Age oppressions of fascist tyranny.

The success of this campaign among the Japanese Americans will not be measured in the dollars and cents of the total amount of money collected.

The measure of success will be in the wholehearted spirit of cooperation and loyalty to America shown in the drive.

(Contributions may be sent to the New York address.)
