

Letter to accompany questionnaire

In order to improve the curriculum and give more effective educational and vocational guidance in the Boston schools we have prepared a questionnaire for you. If you will give it your immediate attention we can start the improved program sooner and the cause for which both of us are working will be forwarded.

War news as you know brings the possibility of peace nearer and nearer, it is during the post war period that the test of the success of our educational and relocation program will come. To the extent that thousands have left the centers and are now making their living on the outside it would appear that relocation is successful. But we should not be at ease until we have more satisfactorily placed each individual in the right position.

Please be as specific as possible in this questionnaire. Your opinion is very valuable. But I need not dwell upon the importance of this questionnaire to you. I believe, since in your core classes you gave so much consideration to the objectives and evaluation of the curriculum.

I hope that you will have time to include a personal letter and tell us all about yourself. We are "enjoying" a temperature around 110 degrees and gorging ourselves with wonderful melons. I wish you had some of them. Hoping to hear from you by return mail, I remain
