Dear Sir:

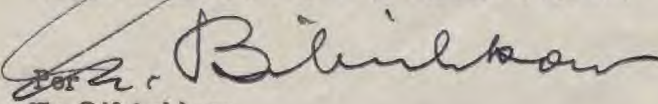

I am sorry that I could not reply to your letter of February 6th sooner. I have been very busy. Judging from your letter and snapshot negatives, you may make a good draftsman after serving an apprenticeship.

However, the amount of salary you can expect would be less than you could obtain were you able to step into our Drafting Department and turn out finished work.

I am sending the correspondence regarding your application to our Production Department as they may be able to use you in the plant. You will hear from them within a few days and they will return your negatives.

If you have been accepted for the armed forces please advise so that we will know you are not available.
