

WAR RELOCATION AUTHORITY

226 West Jackson Boulevard
Chicago 6, Illinois

December 31, 1943

TO: All Project Directors
ATTENTION: Relocation Program Officer

We attach herewith lists of job offers which are current at this moment in the sub-offices of the Chicago area. This is in conformity with recent instructions from Washington which asks that such summaries go to you on a twice a month basis. Inasmuch as this is the first publication, we are sending you 100 copies. Please advise us if this number is too great or not enough so that we may be guided in our issues that will be sent to you January 15 and subsequent months.

You will note that we do not give the names of employers on these various offers, but we are anxious that correspondence of interested people be directed to the sub-office concerned. We are very anxious to have resettlers come in without accepting job offers. We find it more advantageous to the resettler, to the prospective employer, and to our own offices to have the applicant make his own application in person. We believe that this list ought to give assurance to all who are considering relocation that there are many jobs waiting for them when they come out.

If you have any criticism as to the make-up of these summaries, we shall be glad to receive them for guidance in making future issues.

Elmer L. Shirrell
