MEMORANDUM TO: All Project Directors

FROM: Frank E. Gibbs
Acting Relocation Supervisor

Attached hereto is a current job summary report, 100 copies of which are today being forwarded to each center, covering the area of Missouri, Kansas, Iowa, Nebraska, and the eastern half of South Dakota.

In this connection, may we request that after having reviewed the report, you in turn write us offering any suggestions concerning style, treatment, and content which may be helpful to future presentations; whether or not more detailed information is desired relative to specific working conditions, employer's names, where located, exact wages, etc. We will welcome any suggestions you may have to offer that will help to make this survey the most useful.

As here demonstrated, there are many work opportunities for resettlers throughout this entire area. Be assured that we are desirous in every manner possible to effectively bring these offers to the attention of residents within the centers.
