

# MANZANAR CENTER CITIZENS JOIN NET PROJECT EN MASSE

With the success of the vital camouflage project at stake, Manzanar rolled up its sleeves and prepared to pitch in. At an emergency meeting of the block leaders yesterday, E.L. Stancliff, Manager of the Industrial Division of the WRA, stressed that the other contemplated industrial projects hinge on the success of the net garnishing venture.

## RELIEVE NISEI

In order to free manpower to work on this project which is limited to American citizens, seventy odd departments will be requested to spare their staffs down to the bone and substitute issei for nisei wherever possible. SIX MONTH'S WORK

The camouflage production as planned calls for the garnishing of 225,000 nets, with the work being divided between Santa Anita and Manzanar. Although Santa Anita experienced a slight delay in the beginning, production is now reaching full capacity. This center's share will utilize 1000 workers eventually and will take six months to complete. JOB PRIORITY

Those nisei who leave their present jobs to work in the defense projects will receive job priority or reinstatements when the camouflage work is completed. Many special considerations will be given, including transportation to and from work.

## SKILLED RATING

Capt. Wallendorf of the West Defense Command, accompanying Stancliff, stated that these workers will be given a skilled rating, in all likelihood. A merit system based on efficiency was being contemplated.

FIREMAN'S BALL SATURDAY

# WCCA WAGES COMING SOON

Wages for the past three months will be issued possibly the beginning of next week, according to statements from F.H. Kinchloe of the Accounting office. Checks will arrive approximately every week for the next three weeks with the March wages to be issued first and will be distributed according to the \$8, \$12, and \$16 wage scale announced earlier by the WCCA.

Kinchloe estimated the total payroll for March will be about \$1000 for the 644 workers who arrived on the 23rd of March. Monthly wages are determined from the first of each month and it was estimated that in April pay checks totaled \$15,000 with approximately 1500 workers. Pay check totals were not known for May but approximately 3000 were employed.

# BANK OF AMERICA OPENS HERE

Banking services for Manzanar will be offered through the Bank of America, which will open a branch in Blk. 21 near the canteen. Beginning next Tuesday, June 23, the local bank will be open every Tuesday between the hours of 9 a.m. and 4 p.m.

Only limited banking facilities will be available on the opening day as C.S. McArthur, manager of the Lone Pine Bank of America, will be present to discuss banking problems primarily.

# WHERE DO WE STAND?

We, American citizens of Japanese ancestry, are truly destiny's children. We have been placed in centers because our loyalty was tacitly questioned, because we, as a united group, did not take a firm stand regarding the war. The time has come to show what stuff we are made of.

Recently Manzanar was selected as one of the centers to garnish camouflage nets. Seven hundred men and women were required, but only a few have volunteered so far.

There were reasons. People had not yet received wages for past work and morale was low. Working conditions were not favorable. And available citizens were already employed and aliens were not allowed in war industries.

These problems have been faced realistically. We have the army's word that conditions will be improved even more. Many departments that are over staffed will be whittled down to the minimum. Wherever possible, issei will replace nisei.

The camouflage net production is our test. If this project fails, it means that the army and the WRA will be reluctant to start other industries. It is through the profits of these other industries that we can raise our wage scale!!

The national emergency demands great sacrifices from every American. By our active participation in defense projects, we must prove our unquestioned loyalty. Our failure now would be capitalized by demagogues who are trying to deprive us of our birthright. We must pull ourselves up by the bootstraps.

Many of our rights as free men have been encroached upon, but we must make this sacrifice to preserve and strengthen the national morale. Manzanar has been designated as our own particular front. Let us fight as willingly and as courageously as the soldiers in McArthur's valiant band.

And in the years to come, let no one deny us the rights and privileges of free Americans. Our future lies in our hands. Let us pitch in now and work!

**PLATTER PARADE  
DUE SUNDAY**

Swing fans should turn out en masse for this Sunday's "Evening Under the Stars" recorded program as popular music by the leading swing bands will be featured. The popular concert, which will feature music by the bands of Glenn Miller, Harry James and Tommy Dorsey, will be held from 8:30 p.m. in the firebreak between Blks. 10 and 11.

**CALL RELATIVES  
BY APPLICATION**

Residents may still file applications to call their relatives to Manzanar from other centers, announced the Community Service division today.

Because of limited transportation and housing facilities, however, only immediate families will be able to come here. Applications may be filed at any time through the information office.

# ELECTIONS FOR FIVE BLOCK LEADERS MONDAY

Manzanar's first democratic election will take place this Friday when residents of five new blocks meet to nominate candidates for block leaders. Final election will take place on Monday.

Breaking away from the old method of final selection by the administration, the people of Blks. 19, 25, 26, 27 and 30 will cast their ballots on Monday at their polling stations. The candidates receiving the highest votes will automatically be named the block leader.

Wholehearted endorsement of this democratic procedure was given by administration officials. A special election board of five block leaders composed of Fred Ogura, Ted Akahoshi, Harry Nakamura, Tom Yamasaki and Genji Yamaguchi will organize and supervise the election in the new blocks.

# TUTORS SOUGHT FOR HIGH SCHOOL CLASSES

As registration for the evening educational program for Jr. and Sr. high reached an all time high, department heads are sending out a call for extra volunteer tutors. Tutors for Spanish, French, Commercial, English and Social Studies are needed.

Although the tutoring program is primarily to help students who have already received books and assignments, arrangements are being made through Dr. Carter's office to contact schools again.

# DOUBLE SHIFTS COOKS PARADISE

It's cooks' paradise when they work in double shifts. Kitchen 7 to 12 have cooks for morning and another crew for the afternoon, relieving the usual long hours. ## TEACHER TRAINING COURSE OFFERED

College graduates with some experience in educational methods are eligible for the teacher training program and position in the Manzanar School System next year, revealed Dr. Genevieve Carter, Superintendent of Education.

It is axiomatic that whoever breaks the "ice" by appearing at the office donned in "imagination and a pair of shorts," will automatically break the "heat". We note our girl friends fondly eyeing their fancy shorts, heaving a sigh, and sadly returning them to the bottom of their dusty suitcases.

For the first time we are in a position where we can actually thumb our noses at fashion's crazy dictates and let imagination and practicality rule our wardrobes. No more fancy gold trimmings for the nice miss. Ingenious rope belts, hand-carved buttons, and clever handmade accessories can "make" a plain cotton or rayon dress.

Popular this season are the simple, longer length shorts that look for all the world as if Doc. Goto had taken regular slacks and amputated them at the knees. This new type is most effective in dark linens, and strutters cloth, with contrasting bare-midriff tops in plaids that pick up and repeat the color of the shorts. By the midriff we're not referring to the shrinkage-inspired effects that the fellows flaunt!

## ARMY PURCHASES CARS FOR DEFENSE

領金書切換、新貯金の手續

又は、領金のためのチエツキ受付だけ南店の日に行はれますが、

現在のところ、チエツキのキヤツシエ、銀行チエツキの抽出は行はれないとのことである。

カムフラトチ網製衣産所の諸條件に就いて

マンザナは今や、その死活線とも言ふべき、防空網製衣産に一大拍車をかけるべく意気込んでゐる。

昨日の地区代表者会談でW.

R.A. (戦時転住局)の産業係

産業計畫の成果は製網事業の成功如何によると強調された。

製網事業の人員増加を計る為、各部課の二世人員減少して、一世を採用することになりました。

国防産業にゆく為に現職業を去る二世は製網事業終了と共に復職の優先権を約束されてゐる。

西部国防師團のウオーレンドーフ大尉は此業職人は多分S級を貰ふだろうと言つた。亦その人の能率に従ひ、特別カ勞の方法が考慮されてゐるとのことである。

同大尉は、この製網事業が多く二世が国防産業参加を要求した結果、始められたものでありと強調された。

西部国防師團とセクター当局は此の事業の成功を革府へ既に保証してゐる。
