# RESIDENTS RUSH TO POLLS TO VOTE

## ON CAMOUFLAGE PROJECT

The polls at the respective Block Managers' offices throughout Poston III remained open until 7 o'clock last night as all residents above the age of 16 years old hurried to cast their vote on the important issue of a garnishing net project.

The ballots will be placed in an envelope without being tabulated and the poll watchers shall sign their names on the sealed envelope, noting on the outside, the block number and the number of ballots. The envelopes will be turned to the Council Chairman this morning to be counted this afternoon in the presence of the three Chairmen and any other interested witnesses.

The results of the voting were not available when the Chronicle went to press, but a large percentage of votes was expected to have been cast during the day.

Relevant points of the net project were presented at mass meetings held in all of the blocks on Monday night, and the decision on the vital matter was left to the residents.

If the project was accepted, it was pointed out that a large source of income would be added to the Poston center.

At Poston III, the Community Council, Miscellaneous advisors, and Block Managers held a thorough discussion on the garnishing net plans last Monday afternoon so that the members of the above bodies would be in a position to present all the issues clearly to the people before Tuesday's vote.
