August 8, 1942

ARMY MAKES NEW RULING

Advisory Committee Set Up

RELOCATION PERMIT TOLD
Procedures through which individual American citizens of Japanese ancestry and their families may obtain permission to leave relocation centers to seek jobs outside the Western Defense Command were recently disclosed by the national director of the War Relocation Authority. The Western Defense Command embraces the states of Washington, Oregon, California, Idaho, Utah, Arizona, Nevada and Montana and the Territory of Alaska.

Permission to leave Relocation Centers will be granted by the national director only to American-born persons who have never lived in Japan or attended school there. This leave will be granted only after the director has obtained full information as to the loyalty of the applicant and the nature of the employment offered. Dillon S. Myer, national director of the WRA, will make necessary arrangements with the prospective employer in order to insure satisfactory working conditions and will also com-

In order to establish uniformity throughout all the assembly centers in regard to relationship between the administration and the evacuees, the Army headquarters has issued instructions setting up an advisory committee of evacuees, the size of which depends on the population of the given center.

As provided for in the instructions, the alien population will be represented to the number of residents. In this case, there will be five citizens and two aliens. As this order makes no provision for our present governmental set-up, the members of the council will be appointed to a sub-committee on evacuation. They are at present working with the administration on the details of the movement.

The Center Council in a letter to the Center Manager has pledged its full cooperation to the new set-up.

VOTERS MUST SHOW ACTION

According to Ken Utsunomiya, Commissioner of Service and in charge of the absentee ballots, applications are not going as fast as was anticipated. All persons eligible to vote are asked to apply for them by

NINOKAWA, PROJECTOR

The smooth running of the weekly movies is due largely to K Councilman Frank Ninokawa, who operates the projector. Ninokawa, who is a licensed operator, was formerly connected with the Southern California Trading Company of Gardena.

municate with local officials in the community
continued on page 5

the 15th of August at the latest. These applications must be in to the County Clerk's office by the 20th and persons receiving them will hold them until further instructions are made available through the Tulare News.

These absentee ballots must be marked in the presence of a notary public and must also be notarized by him before mailing to the County Clerk. Definite date for the notary public service will be announced in the News. As yet, a person has not been chosen as a notary public, so Centerites are asked to hold their ballots until further notice.

BABY FORMULA

The baby formula department of the Center Infirmary was organized immediately on arrival to this Center by an advance party of doctors and nurses. This group arrived here on Monday, April 27. Those in charge of the formula department were assisted by two health officials until the following Wednesday.

It was three weeks later, when the formulas were standardized, and S. M. A. milk was used. S. M. A. milk, differing from the average milk, is fortified, which means that it contains more vitamins and other essentials than the usual milk.

To the uninformed, the filling out of a formula

might seem to be just the boiling of a few ingredients, and putting it into a bottle, but there are many technical steps to be taken. First, all materials used must be sterilized, which means in this

L CANTEEN TO CLOSE

8:30 p.m. tomorrow will end the L-M canteen business, revealed Ben Turpin, Canteen manager. The R-2 opened with no change in their present hours. Due to certain complications, it is impossible to get things as was tentatively planned, Turpin said.

HOW SHALL WE EVACUATE?

HARRY MIYAKE, CHIEF COMMISSIONER

Recalling our evacuation notices in April, many people were unnecessarily excited and did things they never would have done ordinarily. In spite of all that condition evacuation was carried on very smoothly and systematically. This commendable result was due to the careful study and planning by the authorities in charge and the good cooperation by the people as a whole.

Today we are again concerned with evacuation. No one knows when and where we are going other than the tentative plan to Gila River Relocation Center. Emphasis should be made here that this is only a tentative plan and nothing is definite. Then, why should we get hysterical about the matter?

We should be more concerned now with not when and where but HOW.

The Administration, Commissioners, Councilmen and others are working constantly to formulate some definite procedure whereby the evacuee shall be moved to Relocation Center with the least discomfort and speed to avoid hardships. This procedure and policy may sound dictatorial but you people must realize that the aim back of this is for the benefit of the 5000 population. We earnestly request you all to keep calm and cooperate with whatever ruling that the people in charge may formulate. Forget selfishness and sacrifice a little and we promise the evacuation will be carried out most successfully.

Those of you who are working do have certain responsibilities. I do request that all of you stay on the job and not to worry about evacuation.

BLOOD BANK

Donations of blood for the blood bank was recently given by Yoshiko Furuya, Tets Mayeda, and Tom Ota. It all came about when Mr. Furuya, who is now in the County Hospital, underwent an operation and was in need of some blood.

Yoshiko, his daughter, immediately volunteered to give her blood, and following her were Tets Mayeda and Tom Ota. However, Mr. Furuya is doing well without the transfusion, so the blood will be donated to the blood bank.

Asked how it felt, both Tom and Tets replied, "It wasn't half as bad as the recent inoculations and they fed us steak after it." Well, how's about it, you Centerites, wanna donate to the blood bank?

PRIVATE SHIMATSU WRITES

Private Kenichi (Ken) Shimatsu of Camp Walters, Texas, recently mentioned in a story stating that 116 lonesome soldiers wished to correspond with girls in our Assembly Center, desires to have the article clarified. It seems that it was all just a big joke, girls. 'Tis too bad...especially when two of our glamorous dames already wrote to "Ken". According to his letter to the editor he claims that he was a victim of a prank his outfit played on him. Sorry, Ken, hope all is well now.

CENTER

GLEANINGS

Adding color to the life of TULE LAKE COLONY are pets which can be seen romping around the grounds, much to the enjoyment of little kiddies--and grown-ups, no doubt. Twelve hour shifts daily, with a steady stream of customers invading the colony parlor for a \$1.25 "drowning glory."

In a one-month period, 70 garments were completed and turned over to the Red Cross, Multnomah Chapter, by NORTH PORTLAND, OREGON ladies. A single girl contestant competed against 63 males in the model airplane contest at the Anita Chiquita field in SANTA ANITA. Here's hoping...

POMONA CENTER residents will soon embark for Heart Mountain Relocation Center near Cody, Wyoming during the latter part of August according to latest rumors.

'A', 'B', 'C' will be the wage classifications, following latest instructions from the WRA regional office announces the MANZANAR FREE PRESS. Jobs not requiring skills, education, or responsibility will be placed in the "A" category, drawing \$12 per month, while semi-skilled or minor supervisory jobs will be rated "B" with \$16 cash allotment. "C" classifications which draw \$19 are complex or responsible jobs involving policy-making, planning, supervising, coordinating or guiding the work of others.

A complete list of all universities in the United States which offer correspondence courses for credit is now available in the STOCKTON Assembly Center. Catalogues giving information on almost any type of course which students may like to pursue may be found in the library. "A number of universities allow as much as 30 credit toward graduation on correspondence courses and this may give some of the young people here an opportunity to keep up their study---" quotes the El Joaquin.

POPULAR FORUM DISCUSSES RELOCATION

Clothing Deadline

August 10

All persons are asked to apply immediately to their respective headquarters for the clothing issue for the months of July and August. Deadline for the filling out of these forms is Monday the 10th.

Speed is essential, and any delay might result in failure to receive the clothing, according to Corlies R. Carter, head of the Service Division. In order to speed up the affair, unit headquarters may be open over the weekend if necessary, but it is believed that all orders will be in by today.

LOST AND FOUND

The following articles may be claimed at the Police Department:

11 rings, 5 watches, 6 pocket knives, 1 pocket comb in case, 7 pairs of glasses, 1 coin purse, 3 fountain pens, 4 eversharp pencils, 1 cigarette lighter, 1 harmonica, 2 girl's tan sweaters, 1 press pin, 1 man's hat, 1 nail clip, 1 pipe, 8 bunches of keys, 2 key chains, 1 girl's bracelet, 2 necklaces, 1 locket on chain, 1 fraternity key, 10 broaches, 1 Army hankie, 1 rosary, 1 white plastic cigarette case.

"The Social and Economic Implications of the War Relocation Work Corps" will be the timely topic for tomorrow evening's Fellowship to be held in K-8 from 8:30 p. m. Speakers scheduled for the evening are George Sahara, Tsuneo Noguchi, Tom Hirashima, and Frank Tanaka.

A large crowd is anticipated due to the importance and immediate concern which will face the residents in the Relocation Center in the very near future. The panel discussion will be based on the Work Relocation pamphlet which was distributed to each unit soon after our arrival in this Center. Understanding of this pamphlet by the Centerites before the meeting would result in a better discussion, suggest the committee.

The public is cordially invited to attend this informal gathering.

EVACUATION COMMITTEE

RED CROSS KNITTING

With the second limited supply of yarn coming in July 1, the new assignment of the Red Cross Knitting is near completion.

Already finished items are: 4 medium size and 5 small size women's coat-style sweaters; 2 men's sweaters; 1 pair women's gloves, and 3 pairs of children's mittens. There are only a couple more articles coming in to complete the new assignment.

Response has been very good and the past enthusiasm has been very much appreciated, stated Amy Morooka, head of the Red Cross Knitting.

ALL LATRINE SEATS HAVE been given a new coat of varnish by the Center painters. The work was finished yesterday by Bill Kubota and his painters.

PAINTS MURAL

Collecting a curious crowd in front of the grandstand, our Tulare artists have been industriously painting the mural which will adorn both sides of the much-used stage. Aiding Joe Eto, who sketched the design in the actual painting were George Utsunomiya, Shizuko Nakamura, Setsuko Itow, and John Hata.

BOOKS TO BE SENT

Helen Osaka wishes to acknowledge the work of Mr. E. E. Pixley and his crew who have installed the new cabinets at J-6-2. These shelves now contain the numerous textbooks which will be sent to the Relocation Center.

BUY WAR BONDS

FAREWELL PARTY PLANNED

Plans are now underway for a party to be held for all nursery and elementary school children on Friday and Saturday, August 14 and 15 from 1 to 4 p.m. at S-8. Approximately 600

children will attend the affair which will probably be the final group gathering of these children in the Tulare Center.

Each class will contribute to the program for

the afternoon in addition to various games and refreshments which will be served.

Acknowledgements for donations will be announced later.

August 8, 1942

BABY FORMULA DEPT. HAS HIGH RECORD

(Continued from Page 1)
 case, boiling every article over an ordinary kitchen stove. Because of the mass production necessary, equipment is not adequate. Therefore, constant use of the available materials are required. This means that the stove is going all day, and with the boiling water, the temperature of the room runs up to about 115 degrees or more.

Besides the formulas, this department also handles strained and chopped foods. Although many babies were not using these foods before coming here, they were added to the menu.

"In spite of the numerous complaints directed at the formula department, the babies are doing well, and are gaining weight and are healthy. Up to the present time no epidemic of diarrhoea has been traced to the formula department, which is a fine record," stated Dr. Howard Svenson, Resident Doctor in charge of the Infirmary. He also added that since the introduction of S.M.A. milk, very satisfactory results have been obtained, as proved by the records of the Well Baby Clinic.

Under the supervision of Mary Takusagwa, who heads this department, six girls work in two shifts to keep the mothers supplied with the needed food. Working with meager equipment under crowded conditions, these girls have put in many extra hours in order to do their jobs properly. They work from 6 a. m. to about 11 p. m. Formulas are given out five times a day, and the strained and chopped foods three times. In order to make it easier for the mothers living in K, L, and J sections, I mess hall is used as a distribution point for that area.

The girls who work in this department under Mary Takusagwa are Amy Hiratzka, Chizu Kadota, Mary Yoshimura, Nancy Ikeda, Ma-

And I ordered for a swimming suit!

An All-Star Variety Revue will be held this coming Friday night at the grandstand where the hit stars of the past talent shows will appear again. Among some of the stars who are slated to appear are vocalists: Mrs Oji, Jerry Miyama, Joyce and Sue Tachihara, Paul Tanaka, and Kay Otomo. The teenage girls, Can-Can dancers, Cowboy Wranglers, Pats Komai, Boy Scouts, Drum and Bugle Corp., Ted Yamamoto's Orchestra and other top-notch performers will be featured.

CUB DAY AUG. 16

Sunday, August 16, is slated for the Cub Field Day, according to Yoichi Nakase, chairman of cubbing program. Approximately fifty boys, from 9 to 11, in the cubbing, and their parents, will participate in relays, games, and other athletic events. Prizes will be given to winners. It will be held

RELOCATION PERMITS EXPLAINED

(Continued from Page 1)
 where the applicant will reside.

The WRA policy provides that each person who lives in a relocation center under an employment permit remains in the "constructive custody" of military authorities and that the national director of the like Sakamoto, and Kiyoko Hayashi. Also a nurse aide is assigned to this department every two weeks. Four orderlies are also on call for anything that may come up.

GILA NEWS

A letter from a former resident of Turlock now evacuated to Gila, Arizona, or the Sacaton Reception Center as it is called (Sacaton meaning "corkscrew" in Spanish) states:

The weather is warm, but not very different from Turlock, which is not far from Tulare....the sunsets are bee-yoo-ti-ful with flashes of lightning which can be seen in the distance...and the night skies are filled with thousands of stars...

The houses are white-walled with double roofs which serve to ward off much of the heat...making it easier to stay indoors during the hot days....barracks are about one foot off the ground...other facilities are about the same, although still under improvement.

A larger camp is being constructed three miles away from the site of the present one...guess that's the one for us, Tulare residents!

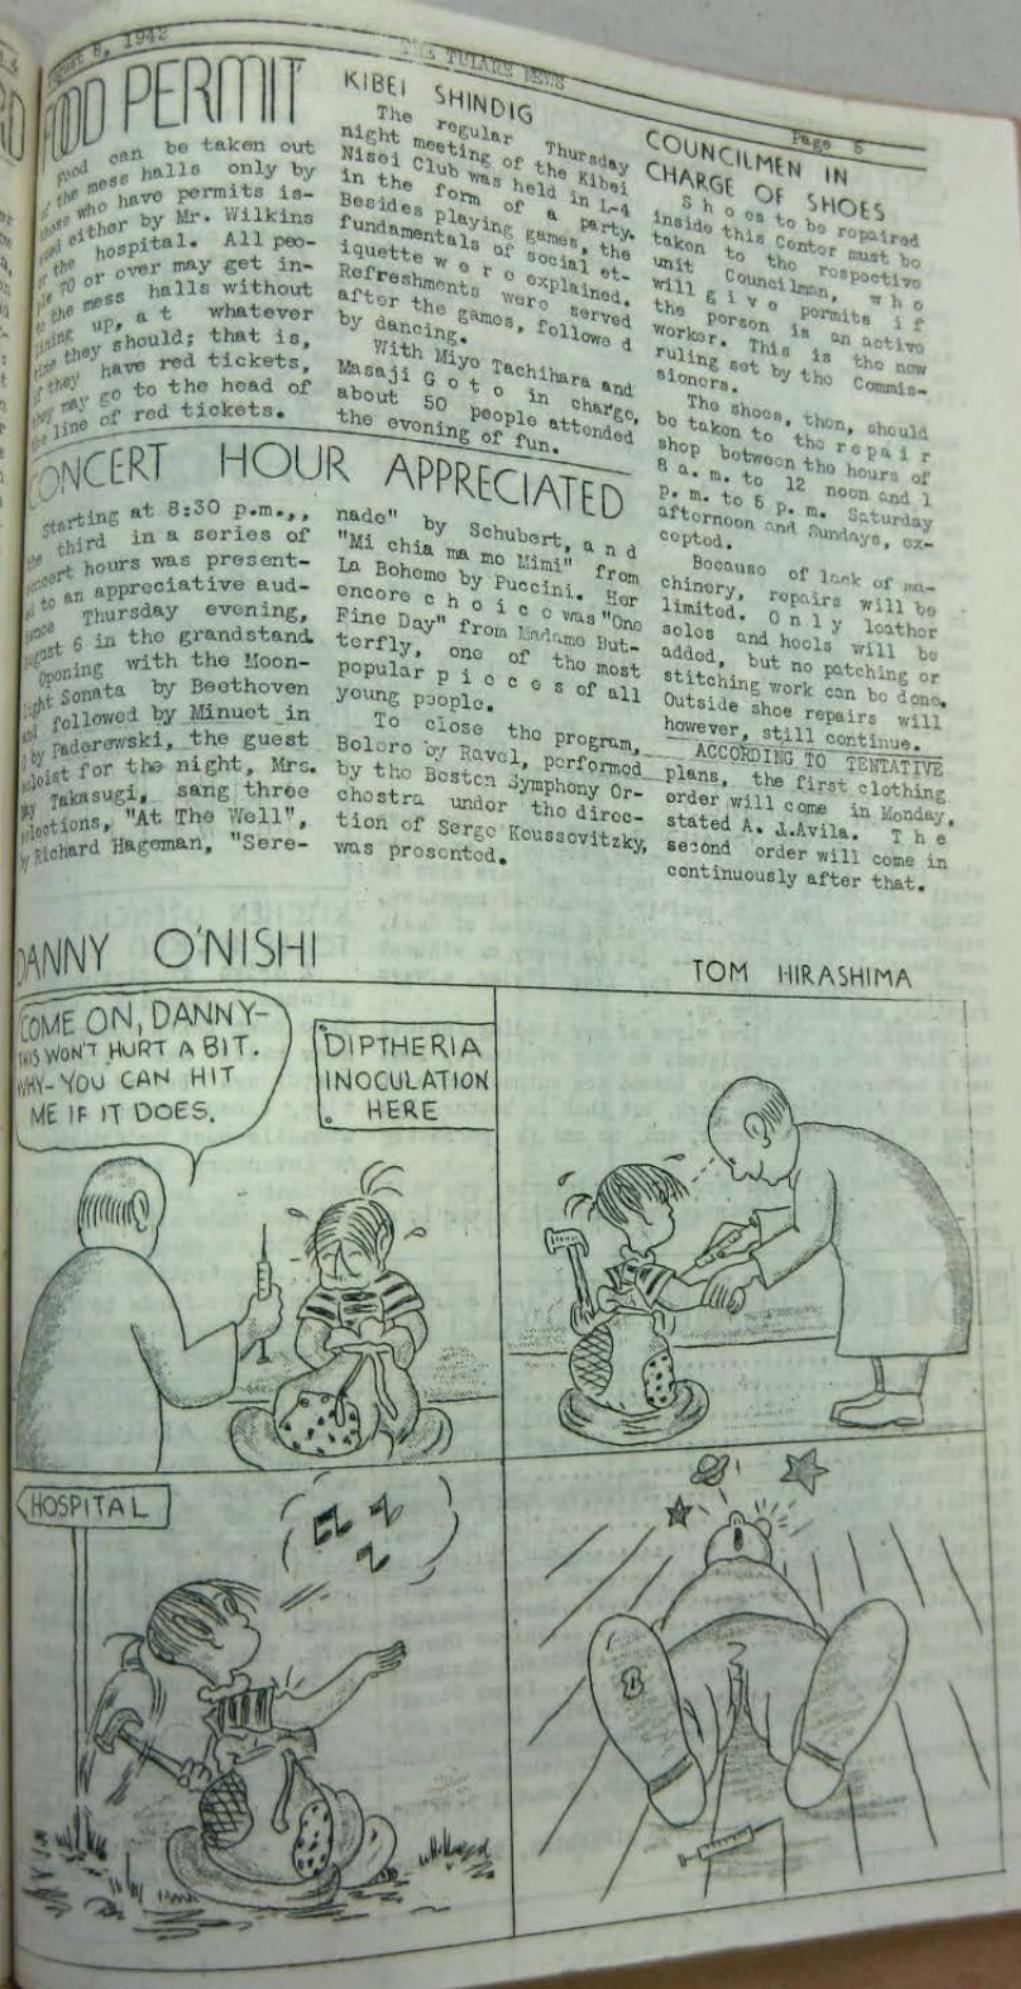

And to the interest of all our young Centerites, they're already having "Get Acquainted" dances!

in front of the grandstand with the opening ceremony beginning at 1:30 p. m. and ending at 5 p. m. Everyone is invited to watch, Nakase said.

WRA may revoke the permit at any time and require the person or persons affected to return to the relocation center.

Under the terms as outlined, the War Relocation Authority will provide transportation to the nearest railroad or bus station and the traveler will arrange for and pay for all other transportation required.

The permit to leave the relocation center will be issued by the director of the Center. ---PACIFIC CITIZEN.

August 8, 1942

OPTIMIST AND PESSIMIST — FORTUNE TELLER — (ISSUE)

"This is the best or all possible places under the circumstances," says the optimist.
The pessimist answers: "This is the worst of all possible places." Both are correct. Best or worst is a matter of inner judgment. Value is a man's designation. Whether one finds the place good or bad depends on how one looks at it, and one tries to make of it.

And we must mark this: the world is in the making. That's what links the optimist. He wants to live in a finished world. He likes better the times that were than the times that are. The optimist loves the world in the making; he wants to help make it. He will go out of his way, pay day in the year, to lend a hand, or help straighten out some mess. This is where people part company.

One rejoices in an imperfect civilization because it gives him a chance to join the builders. Another is enthusiastic. Another laments the out-of-joint times, and that he was ever born to set them right.

He is despondent. The pessimist believes he could have made a better world than this one, without even half-trying. The optimist agrees, and invites the pessimist to pitch in and show how! But the pessimist refuses to cooperate, since he'd rather make a comment or criticize other fellow's accomplishments than to take a part in it.

We are going to a relocation area soon. And whether it is for the better or worse, let us be an optimist! Let us see the bright instead of dark side of things there. Let us be positive instead of negative, vigorous instead of lazy, interesting instead of dull, and cheerful instead of sad. Let us carry on without getting discouraged, keep the flag flying, always fighting, and never give up.

Optimists are the live wires of our leading forces; the first to be congratulated, so they eventually lead us to betterment. They may become too enthusiastic at times and overshoot the mark, but that is better than going to the other extreme, and no one is perfectly balanced.

Young Miscois, if you are not optimistic, you will never go far, and the chances are you will never be a go-getter.

FIRE! FIRE!

Amid the clanging of the bell and roar of the engine, the firemen of the Tule Lake Center went through another practice drill Wednesday night.

The fire fighters' dissatisfaction was the field turned loose where they quickly put out the imaginary fire. This is the fourth drill the firemen have had since the requisition of their new wagon.

KITCHEN UTENSILS TO BE PICKED

A drive to pick up all kitchen utensils which have been taken out of the mess halls was started yesterday. Before relocation, three-fourths of the utensils must be returned. An inventory to show what percentage has been lost will be made after completing the check-up.

A requisition for appropriate funds to cover all losses will be sent to San Francisco if necessary.

ONE THIRD POPULATION EMPLOYED AT TULE LAKE

Aiding America in the war effort are 5,500 employees of Tule Lake Colony, which is over one-third of the present total population. With this large total enrolled for work, Tule Lake is expected to enter into an era of high productivity.

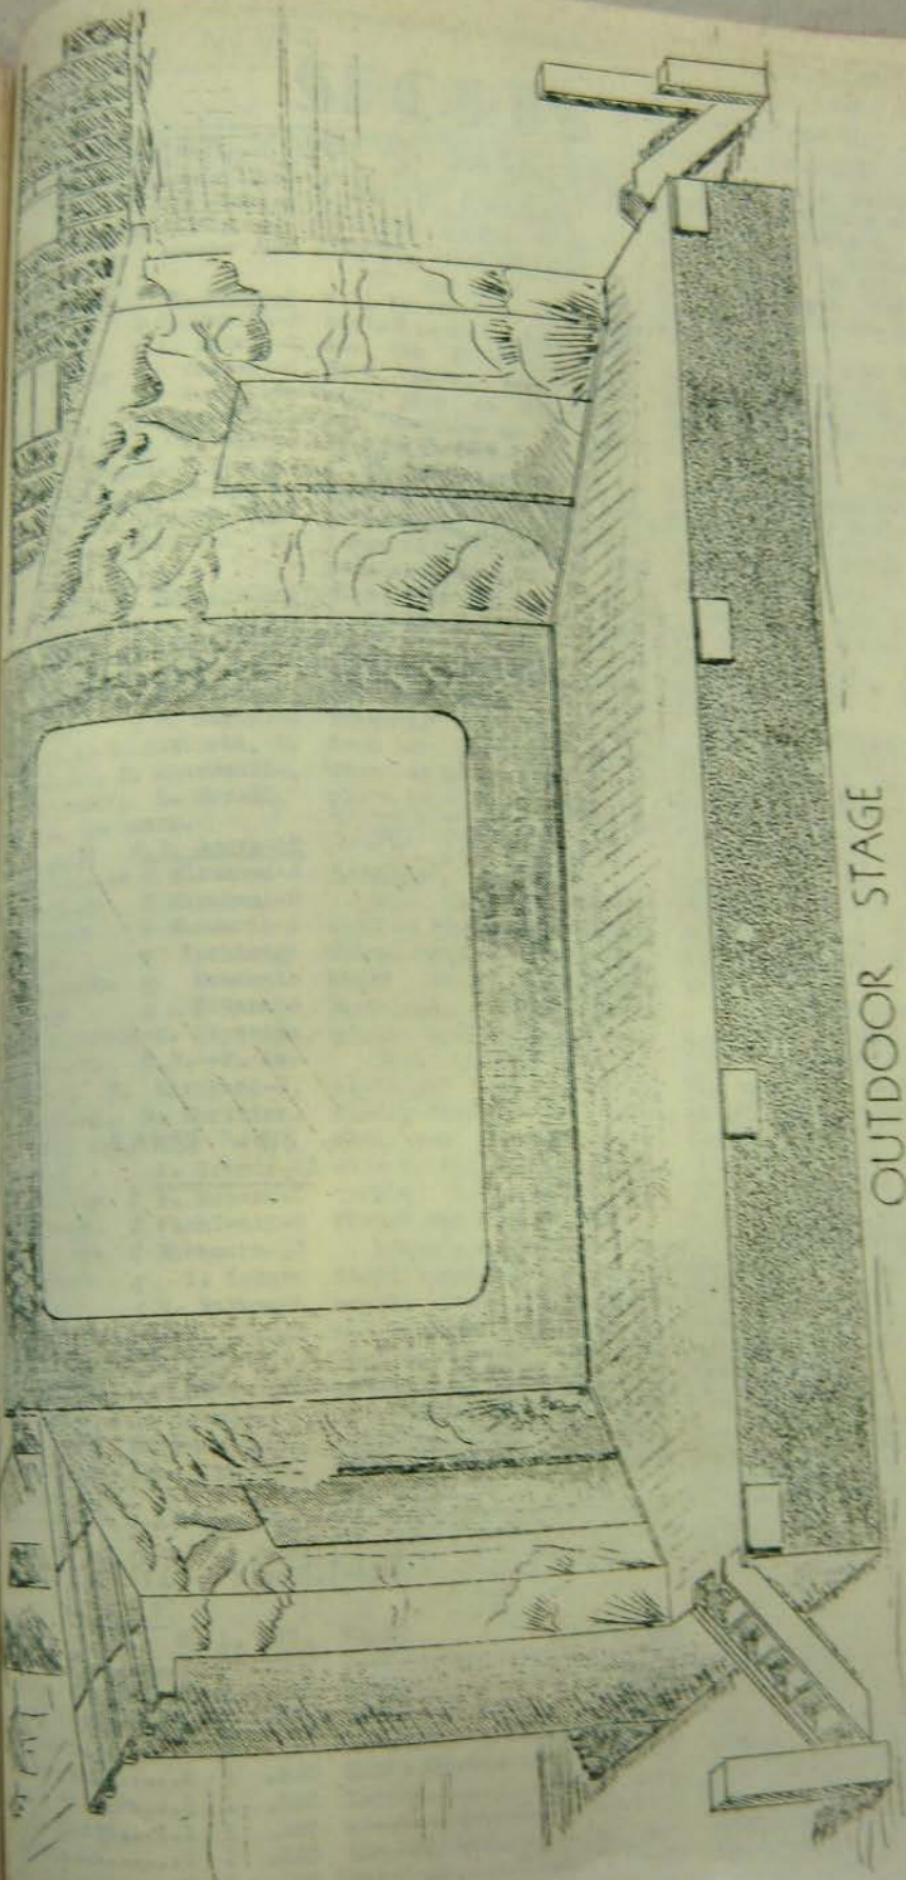

Records reveal that the average resident of the Colony is tabooed at 32 years—oldest one being 87 years, and youngest member born on July 29 at 12:10 a.m.

C AND D CASABA
LEAGUE OPEN FOR
GRADE HOOPSTERS

"C" and "D" classes
will be added to this Cen-
ter's Casaba League. Un-
der the direction of Al-
bert Ikeda, these squads
will play on Wednesdays
and Thursdays on the Coun-
ty Road Courts.

The "B" Leagues will be
entered by 7th and 8th
graders who will play pre-
liminaries to the Cee ca-
tegory at 6:30 p.m. to 7:15
p.m. 9th and 10th graders
comprise the Cee bracket
who will take the courts
at 7:15 p.m. Rocketeers,
who participates in those
leagues, will be admitted
from the physical educa-
tion classes but will be
given credits as same.

SAYO MIZUKI

SINGLES CHAMP

Sayo Mizuki drove her
self to the girl's singles
championship, Thursday,
while Michi Iimura and
Mary Komamoto were crowned
girls' doubles champions.

Sayo Mizuki virtually
walked off Violet Yoshimura
21-14, 21-9 for the plaque.
Sayo had entered the fi-
nals by defeating Mary Ku-
ramoto 21-19, 21-9, and
Violet had drawn a bye.

Playing a steadier game,
Sachi Iimura, and Mary Ku-
ramoto beat Alice Kihara
and Sademi Tanaka 21-9,
21-17. Sachi and Mary
gained the finals by a 21-
14, 23-21 victory over Vi-
olent Yoshimura and Betty
Kuwano. Alice and Sademi
had a bye.

PASADENA TEN
TO CROSS BATS
WITH LOMPOC

Fourth place Pasadena
crossbats with third rank-
ing Lompooc tonight, and
tomorrow night, Guadalupe
will attempt to hold off
the Jr. Firemen's bid for
victory in the Aye Soft-
ball League.

The potent L.L. Bull-
dogs encounters Dominguez
on Monday while on Tuesday,
Oxnard tangles with the col-
lar dwelling Jr. Firemen.

Both Oxnard and Jr.
Firemen will reschedule a
game with Santa Maria.

JUNIOR FIREMAN
MEET TERRIERS

In the B Casaba League,
the Jr. Firemen toss again-
st the Terriers Monday
morning in the 9 o'clock
league.

The Lucky Potters vs.
the Bullpups will be im-
pacted with a defeat on
their clean slate as the
two teams clash on Tuesday.

On Wednesday, the Fire-
mens hash it out. The Jr.
Firemen are now perched in
5th slot while the Sr.
Firemen are a notch below
in 6th.

In this week games, led
by Itoia's 20 point spurge,
the Sr. Firemen trounced
the hapless Scouts 46-6.
Lucky Potters edged by the
Terriers 22-21. J. Mess
knocked the Infirmary out
of the undefeated ranks by
a 31-26 score.

LUCKY POTTERS ENGAGE BULLDOGS

HIGHLIGHT GAME BETWEEN OXNARD AND PASADENA, TUESDAY MORNING

In the senior basketball league, the Lucky Potters and the L.A. Bulldogs open next week's games on Monday at 10 a.m. On Tuesday, the week's highlight game will be played between the only two undefeated teams, Oxnard and Pasadena in what may be for the casaba title.

Leading the spearhead attack for Oxnard will be the Tsuda Bros., while Kei Mikuriya will lead the Pasadena aggregation.

Santa Maria and L.A. Bulldogs take the court on Wednesday. Bulldogs are favored but Santa Maria is to be feared.

In this week's results, Pasadena wallowed the Bulldogs 47-28. Santa Maria split a pair, losing to Oxnard 39-22 and nosing out Lompoc 22-20 in a nip and tuck game.

EASTERN SUMO SQUAD DEFEATS WEST GRAPPLERS

Before a jam-packed crowd of sumo enthusiasts, the East squad won two of the three main event matches to win by a 10-3 score after being deadlocked at 8-8 prior to the crucial jousts.

West's Kunihiro defeated Taira of the East in the first main event, but East retaliated with Miyoshi and Yoshimura defeating Sameshima and Sujishi of the West in the remaining two matches.

In the thrilling can-nin-nuki, East made a clean sweep with Miyoshi, Yoshimura, Mitani, Fujimoto, Nishino and Masatani winning.

The squad: East-Tanaka, Masatani*, Inouye, Masamine, Mori, Haruki, Fujimoto, Sakanashi, Hirase, Tabata*, Yamamoto, Nishino*, Mitani*, Tateishi*, Ota, Micky*, Taira.

West-Takeda*, Iwai, Amano*, Ryno*, Abe*, Imedi*, Hanano, Tagami, Sato, Suzuki, Hazama, Tagami, Shigenaka, Woma, Ryno*, Kunihiro, Oishi.
