Nov. 5/39 -

Dear Kaw - Have you given up
all idea of leaving from any of us
again? Well, don't. I always crack
thru if given time, a long time
may be but we do get there in the
end - Clement has been most awfully
busy - She & Shogo have been out
all day chasing a pig garden - Have
n't heard from them yet it is after
light - They started at 8:30 A.M. It
has been pouring all day & blow-
ing a gale - Nice weather to go over
a garden! Shogo's trollop & a
girl friend has been phoning him -
He was out with her last night
until all hours.

The arms embargo has been
lifted - Wonder what will happen
now. I think it should have been

lifted but don't know just what will
come of it -

Little Denis will be six months old
tomorrow. He has one tooth & another
one nearly thru - sits up & has
the merriest smile imaginable.
He can howl whenever he thinks
he is being put on. He can be
heard a block away -

Have you gone to Arizona
yet? Hope this will be forwarded
if you have -

Don't keep your films undevelop-
ed too long. They go very funny.
At least they used to in the days
when I had a camera with me
wherever I went. These films
may be better now.

Mr. Wright surely has cockeyed
ideas. He better stick to architecture
where he does know a
lot, but not all as he thinks he
does.

Small David went to a special

Morie & Marionette show yesterday.
His father took him - I saw
Donald Duck being deviled by
his nephews. David told me "Was
he mad!" I'll say he was. I saw
the picture sometime ago.

David & Peg took a lot of snaps
of their two boys today hoping
to get something to use for his
Christmas card. They had a
real peach of David last year,
remember?

We are resplendent with a new
green roof! Was finished yester-
day afternoon late. The new land-
lord takes of painting the outside
of the house too. He'll probably
want to raise the rent, too if
he does.

We have had one freeze & several
hard frosts. The country has

been gorgeous in the fall colors.
It is lovely still but not at its
prime. It has been a real joy to
drive over to Cranberry. Different
but as beautiful as the spring bloom.

The horse show is on. Peg & David
went to it on a fine night, last
evening. They say it is very good.
Very few foreign entries tho, not
even the Canadian mounties.
France & Britain are completely
lacking elsewhere.

Clement & Shogo are back. They
had a very gorgeous & good dinner
& got in another errand on the
way home. Something may come
of the garden. Nothing much
could be accomplished today.
Too wet. Shogo will go up again
& make some sketches and give
prices.

Clement is going to write you
some of these times. She really
wants to but is much occupied

with business.

Our best wishes to you. The
McLanes wish you were here as
do Clement & I & we always
enjoy hearing what you are
doing & what is happening to
you -

Most cordially,
"Nannie" -

(Nannie has nothing to do with
Nannah - It is an evolved
nick name -)
