Dear Auntie Yuri

Thank - you for the material you send us.

Mother is going to make a dress. Mother is going to make her a dress too.

I am a girl Scout now. We were going to Prescott but the governor said no. Mother ordered some thing and we found out that we could not go.

Next week I am going back to school. I going to be in the 5th grade. I do not know my teacher's name as yet.

②

I wish you could come
to see us. I heard that
Alice's baby is cute
Okamoto's say that
Marilyn looks like
Terasu.

Good-bye
Kayoko

Sept. 7, 1943.

Dear Gene:

Thank you for the materials, notes and the cards. I wish you could have stopped at Gila & paid us a visit. Did you pass thru Phoenix? I hope you will write more detail about your trip when you get time. I understand it takes 2 days & one night from here to Mangrove.

Sunday was our 1st anniversary in this camp and during the time I went to Camp I about half a dozen times. That is all. As to how outside look I do not know. 1800 People from here will soon be travelling again at Government cost & see more of U.S. & perhaps get the last glimpse of the outside world for some time to come.

I was working & thought I would be to about 16th of this month but things develop faster and here I am lady of leisure (supposedly) for some time. Now I can make some cloth for myself and the children. I shall take about 3 weeks of months rest & find something to do again. I had a call from school to teach and also for work in district line in hospital but both of these I'm not taking for awhile. I worked practically 11 months & it is good time to take a little breaching spell before another round of work. I see you are back at work. I wonder if your camp is like ours - all dependable young workers have practically gone out and only the real young - late teens and around 20th decade cent. of the experience - more workers & folks are eliminated and my department was one

of them. There are working under small crew
with volunteers from the block helping out. I
wonder if your camp is in same boat. When I
started work all of my wages was supposed to
be saved but such is not the case, so if we have
less to spend that will be the way. While this job
lasted it was a good one as I was master of my
own time. I could stay home half a day & do
my wash with no one complaining. It will be
harder to find such a good job as this.

Our hot weather is practically over & it is cooler
in the morning & evening & makes sleep a little
bit comfortable. I imagine you ^{are} having grand
weather now.

By the way what did Tok name her baby?

The Ichis finally left Saturday Aug. 28 around
9:30 P.M. - That is Mrs and Calvin the youngest. Bob
the oldest who was in Temple University - Philadelphia
came back to see his mother & hurried to see his
father in Santa Fe & received last minute instruc-
tions about their property. He will be here about 2 wks
& will be going back to school again.

It is end of page and Kay is getting restless
as she wants to go to P.O. to get a C.O.D. package.

I hope father is feeling fine and all the tiny
ones in good health. Best regards to all. We are
all well -

Just heard one of Logzakis (Drs) went to New York
and other to Baltimore (which is going to Baltimore
& Kozup to New York - Now I shall try to catch up on
my correspondence - He! He! Love to all
Thanks for everything. Enclose find 4.00 you may be surprised out of
