Dear Yuri:

Thank you for the photographs. As I did not get to see the show. They help me visualize as they were displayed and I am happy to have them. Perhaps too light to tell the true colors of my work but I do have slides in color of most of the ones in the show so okay - I was more interested in the how they were displayed. I was being photographed so never got around to see the show. I even missed the food.

which I only noticed in Mickie
Kobi's photos.

I am glad you and your niece enjoyed seeing the show. Thank you for taking the trip & photographing. I thought I may go again exhibition was extended to May 7th but the building is being painted using my apt & roof as passage & scaffolding so awful! one week with 4 men running in & out, using toilet etc etc – awful. 9-4 PM. It's just cunning for me as I can't do a thing. They were to finish in a week but next week too & I've got to get warehouse for my show as they made no phones ahead – Honolulu all but he proved everything in work so I'll take control now –

I thought I'd see you at Asia Pacific Heritage affairs on Thursday and on Saturday. I was tired but enjoyed. all young people. only few old timers

Anne S? had Jessie + Citizens Congress Brothers to few people I know – They had classes with nice progress this year at both places.)

well our generation is
gone – my challange is my
own as not many understand
highest beauty art on Top. but
Ill fight on and make it.
Thank you again!
Happy Spring. Wisport
time –
Beautiful Day
Mothers Day
but since Tomorrow is
painters no stages home
to catch up on my own
work – so much
scattered –

Dear Yuri!

It's unbelievable the people, commitments, requests, fax, and problems. There is no end but somehow I must clear the deck & finish my work for now after 80 years of others & service. My work is the important and I ain't a young chicken no more – Happy to get reports that my health is okay for peace of mind but may have a relapse when I get the bills as all were top specialists. Health is most important now so somehow, well, in an age (after fighting odds for 80 years).

So you've decided to go West. March should be a good month – I have all the [illegible] out already in California.

Your article is interesting because advocacy

Have a wonderful
Trip + Visit.

person would think, disabled, retarded ~~old~~ old,
handicapped, ela, etc. applied among the aliens.
I remember in my camp they didn't know where
to put the prostitutes (known), no barrack wanted them
& then can imagine what people are as today. They
would have had a night mare of Trouble if had to
handle another race not screened and angry.
Will perhaps see you in March 5th — Maybe
