

I

July 25, 1944
Tuesday 8:15 P.M.

Darling,

Thanks ever so much for the lovely letter which I received from you to-day. It was written on the 18th of July. I also received another which you sent to me at Texas written on the 27th of June. Also received two other letters from fellows I used to know at Kansas. They are restored and one of them is here in another Bx. Gee how I hope that you can read this letter alright cause the writing is small and poor.

Gee how it really is about time you started getting my letters cause it takes about 4-5 days to get there. I hope your getting them by now.

II

Dearest it really does make me very happy to hear that you love me and etc. I love you so my sweet. You please don't ever worry about me cause I am being true to you. And I love you and only you and kiss yours alone for. No matter how much I want you, while away, I'll be faithful to you and save myself just for you. I really do miss the nearness of you and you loving me and kiss yours for ever and ever. I want you always to think of me only and love me with all your heart. Your mine dearest and only mine I pray for ever.

I guess by my other letters you know how I feel and like my new home. The only thing is that I won't be there long and I'll be leaving here one of these days. I pray that it'll be soon.

The fellows here are all O.K. and please don't worry dearest. As far as I know I am the only one here. I still have a funny feeling that they'll send me to Shelby one of these days. Oh well I guess time will tell eh? It sure is hot out here but after one gets used to it it won't be bad.

Dee hon. I really do miss you and Yvri so very much. It makes me very very happy to know that Yvri does miss me. I was afraid that she would forget all about me as soon as I left. Dee hon I really do pray that Yvri can have a brother one of these days soon but one never can tell. Hon I do want a son one of these days but if it turns out to be a girl I guess it'll have to do eh? That's one thing that we can't do anything about. Hon all I want is another child and pray that it will be a boy.

V
yes dearest I can just
picture you taking a bath
and talking and every-
thing. She really is a
wonderful and cute daughter
and I really am proud of
her and her mother.

See it sure was swell of
all of them to remember
your birthday. We have
a daughter two years old
now and I'm happy. Are
you?

Dearest please don't worry
about your allotment cause
it has all been taken
care of. I really don't know
how soon you'll get it
but I know that it will
be soon. I want you to
stay there until you start

IV

getting your allotment
checks done. I know how
you feel about staying
there but please do. How
about my pay I'm suppose
to get what a private
gets cause everything is
all straightened out but
if I keep moving around
I won't get it. I should
find out for sure if I'm
here a few months or a
month at the most. The
Army pay once a month
and one has to sign the
pay roll and if he get
shipped out he doesn't
get paid till the following
month. It's hard to explain
so I'll wait until the next
time I see you dearest.

VII

We heard a lot about them fellows who failed to report for physical and etc. Well it's their own fault and it's a serious offense. All I can say is that it's just to bad.

Dearest we had a lot to look back to but the future I know is and will be a lot better.

Dearest am going to close for tonight but will write soon again. Am always thinking of you and your my dear. Love and miss you both. Please take the best of care of yourself and Yvri. Be good now.

Love you sweetheart.

Always yours,
Hubby Alvin
