Dearest Kii:

Your letter of the Jan. 27 received yesterday.

1. Sanyo Co. is frozen, both merchandise and money.
2. The city of Portland does not issue any more licenses to Japanese Nationals for any kind of business.
3. Your Dental State Board licence is suspended at present. However, Dr. Weeks told me to come back and see him in the last part of March.
4. Either to take out anything from your office or to let any one work in there, I must apply for a special licence ^{for each item}, and that takes both money and time.
5. Do not trust Dr. KAJIYA either. Remember the Pearl Harbor. Our own people betrayed us, disgraced us. Your friend today may not be that way tomorrow. Don't you see how Dr. Shiomi tries to take advantage on you when you are most helpless?
6. I am waiting for the further development of your hearing. Should you be released, then you can attend to your business yourself, otherwise I have to obtain a licence to take care the whole thing myself and only until then, I shall have some white American citizens to keep up your office.
7. Let us do the best we can, and leave the rest in God's hand and not worry.

Love, your
