The board chairman, Hiroshi Kanno, opened the meeting by explaining the resolution had been supported from a humanitarian viewpoint, and in that it was an expression of sympathy for the plight of all migrant farm workers, it was not intended as an attack against Central California growers.

Minami, who had been the first president of the Chicago JACL chapter in 1945, declared in his opening statement that Nisei growers are fighting for their economic lives. He then showed a film produced by the American Farm Bureau Federation, an organization of growers, the gist of which was that at least some Chicanos are opposed to UFWOC and its meth- had moved swiftly to round ods. Later, Minami said he had come to Chicago with the assumption that he would be engaging in a dialogue with JACL members, trying to present the Nisei farmers point of view. The presence of the UFWOC representatives, however, turned the presentation into a less than orderly debate that sometimes turned acrimonious.

To this casual visitor, certain matters became apparent:

1—The facts are hard to determine then advocates of two opposing viewpoints are trying to present them. 2—A debate of the type that resulted at the Chicago meeting is so laden with rhetoric that it is likely JACL CONFAB ABSOLUTE FOR MAY 15

AN APPEAL FOR OUR NATION

I believe (and certainly hope) that those who have known me are aware that I have always sought to speak out candidly and honestly on issues and people; that I have not equivocated, sought compromises or urged causes for any selfish motives; that, indeed, even at the risk of inviting strong criticism I have often taken positions because I firmly believed in them. As an American, maintaining confidence in our system of government, that it can be made to work as intended by our Founding Fathers.

In this vein, I respectfully urge your support for Senator GEORGE McGOVERN for President of the United States.

To turn our Nation away from the continued madness of spending billions for killing peoples in a faraway land while the needs of our own,-the elderly, the school children, the poor, the burdens of our overtaxed citizens,-continue to be sorely ignored.

To retain our senses and to restore calm to our land.

To halt the paranoia of repressive legislation, the surreptitious surveilliance of our citizenry, the spread of the pallor of fear.

To restore openness to our government, to have the voices of the people heard once again.

I deeply feel, and know, that Senator McGOVERN has the character, the integrity, the sensitivity, the courage and ability to restore our land, our government, our peoples. And so it was that years ago when he was a candidate for the U.S. Senate that I backed up my belief and confidence in him with a campaign contribution. And so it is today that I place this appeal, without his knowledge or urging, and at my own cost.
