DAWN

To extinguish your campfire, **DROWN** it with water. Mix soil with the embers and ashes, and stir it to make sure it's all wet. Scrape logs to ensure you don't miss any cinders. If it's too **HOT TO TOUCH**, it's too early to leave. When you're absolutely sure it's safe, douse it with a bit more water. The forest was good to you; return the favor. Be a responsible **CAMPFIRE MASTER**, and leave your site as you found it.
