seemed to have me.

"Dylan" - gaming Big Beefy White Hart Films. Sureoff "COSMO"

I got the real impression that once this girl I'd caught or apprehended the person she'd let down would never see her again, but I was busy trying to please. She was very disappointed & very strong. I was intimidated. I was the girl, and I could see from her perspective. She couldn't fit through the tiny door in this tiny house that had almost been consumed by the hill it was on the side of. It was all so close.

She (I) could just move out the imaginary form of the person who had been lying there. She was hanging on a Big Bed on a Part submerged by hill, around to the left. She (I) can reach 2 knives, a plastic one & a shiny stainless steel pointy knife. I hold the metal one and wonder.

42

all of my Dreams take Place now in a wonky, sliding, crooked world of cobble stone Buildings & streets & Streetlights. Sienna at night, but spritzy, always tilting sideways and a sense of off-kilter sliding. Dark, Dish or night & a constantly shifting cast of characters. I never sleep at ease.

Hi got an MRI - 300€! So cheap!
also, the Italian approach to medical safety is like "Sure, but relax man be cool don't be an asshole leave your shoes on"

when he was calm was about to put it in the mail & then indicated the emergency soap pump — "This is for, in case of any emergencies — if you have your, man as I was her servant. I did introduce myself as Kirby here so she doesn't panic". At Kirby & I can't agree on if he simply thought she was a sickly person & I was her caregiver, or if I was in her employ like a butler, or if I was in her employ like a butler, he took similar so maybe he couldn't read our relationship. It was a "ready cure" nail machine that had "magnetico espresso" printed on it. & I tried to take off my shoes & socks before the guy just looked at me like "c'mon" & told me to put my shoes back on. It was incredible. I stood there in the radiation zone marketed in pamphlet form to treat as various ailments made sounded for all the world like Stacey and Dawn for 20 mins. at one point a bunch of alarms went off. But it didn't seem to mean anything.

were waiting in a stairwell as it tried to make a gynecologist appt. & a guy (old) came through & said I looked like Michael Jackson in the heat & the yelling to purge) but not. The whole color of the skin."

I like the stairwell better than the waiting room at Dr. Steven Herr. There Aunt on often and you get a bit of light. Some one keeps turning the overhead on. I think it's Michael Jackson guy.

Kirby Decided that in my first order as her new servant I should get a waiters uniform & carry around a silver candlestick & a rug for Bubbles. She also noted that I do already pattern my hair a bit like hers, roughly at the elbow slightly back as if she is heading so that would cheer me. She's right I like a woman who leads in matters of charge. This only gotten me in trouble b/c while (A) definitely took charge, that was in no way a healthy relationship.

Last night I dreamt that a friend was bragging about having a benign tumor removed and how scary it was to be operated on & everything. But Kirby just scoffed & said sombrely like "Ohh one of the type it can't touch." Death like that like 12 of those removed. In such a casual way that it just slunk (Pretzel?) down but wasn't mean. I was so proud.

The 2215 train out of Milan to Bologna is a real party. This is when everyone gets all their emailing, tannoying on the phone, and drunken singing in advance Right now

To where I am trying to sleep done. I cannot imagine how any emails would get sent or received & people who turn their notifications off are the way up (2200 (10-12 o'clock)) Local trading did not exist. Truly, business would grind to a halt. Also, similarly, what's the point of even having a phone if not to hold it aggressively one's ear playing angry music from the other speaker, or for (what seemed to be) loud prayer audio messages (?) That are, I guess, to be played loudly and laughed at loudly as if on speaker in one's own living room.

All of this would be bearable if this train had a single outlet, anywhere. So I could charge my Battweg, and listen to - anything else. This is a thing men & it is up to us, the Delis, to make it viable.

Milan -> Bologna

63

I don't think I'm getting any sleep tonight. without powerful is nothing I can do, our next train re: cuisson Bologna → Firenze is at like 0400. So were gonna hang out at the train station (me & Kirby). I suppose I really wanted to be tracked. Bologna pretty anti-semetic historically but neither K nor I are semites. I'm a white man with the money to make things happen and I took off my ring & I'm wearing a normal enough looking sweater. We should be okay for 4 hours or so. The main problem is Boredom I can entertain myself indefinitely but K needs a project. like talking, or research, without fewer than highly limited possibilities and talking stresses me out after awhile. But K is a great companion because she will Dead if ICC. If I say "you're making me uncomfortable" she stops! It's incredible.

But they do play Led Zeppelin cos one in the morning, Probably at the Discretion of the Desk Agent - Although it may be mandated "Cool" music by the leaders of this Space-Age Hotel. K and I are both white enough to use this Space, I suppose indefinitely, but we should keep a look out. My knees been Barely keeping a charge & my spine Buttery like the Horse Dead. I'm not sure how much longer we can wait here. Our train is at 6:00 or so tomorrow a— or Rome, later today or Venice. All we have now is to pass a restless night on the move. Hotels are very empty at night, I always imagined them more bustling, with guests coming

usurped by the public. There was one queue often of about that lasted 0900 - ~~0930~~ 2100. And my watch informed me it was 2045. I carefully watched the (female) guard in white and the uniform who was watching people file out, I wasn't sure if I'd be allowed in but a white man in a T-shirt walked up he charged ahead so I rattled with him. We walked along a path on the right side of the park heading towards the palace and in the centre people were wrapping up V. exercises. They were all sorts of people. A few have taken photos in my appreciation of Firenze v. parts. At the apex of the horse-circle in front of palace three guards, talking. I looked up & looked at them but they didn't care that I was there. So I walked past them and nobody took a photo. I then turned around expecting to see them still watching. Surprised I ambled down the steps into the amphitheatre and

counted towards. Scattered around were comfortable metal chairs with a few pockets of men sitting, other chairs piled up as footrests. I snapped a few shots of the palace (it looks just like the photo) and snuggled down in a seat to read my book of allen ginsberg poems I had bought that day at Shakespeare & Co. like the hipster shit that I am. But only a few pages in there was a shrill whistle! It came from all around. As if a prisoner had escaped! Surprised I looked to my left at the pair of French men whose arse I had taken that I was allowed to use another chair (there were many) as a footrest. They were looking around. I was at once so confused. So I stood up & tried to follow a woman out of the park. But she was chased away by a guard. Now I was in front and I carefully walked to the exact side of the park to exit. Now clear in my understanding of the whistles a British family from Bright seemed done for out.

about something doesn't mean its
good Art. It just means it's Art
Art. "Conceptual Art" is just Art, I suppose.
What is Art that is mechanical, Thoughtless
Isn't that just Design? #Button Duchamp is
totally subjective and based not on how
much thought went into it or if it tried
to talk about something or even if you liked
it. Art is About if the Art succeeded
at what it set out to do / and if it
connected. To me Art is anything made
By a human that creates emotion.
That doesn't make it good or important

Comitato per la Libertà di scelta Vaccinale

A Child Handed This To Me.

CHI SIAMO?

Siamo un gruppo di genitori preoccupati per la salute dei nostri figli.
Crediamo nell'importanza delle vaccinazioni, ma siamo contrari ad una legge fondata sul ricatto e sull'esclusione dei bambini dalla loro vita sociale ed affettiva.

COSA CHIEDIAMO?

Chiediamo informazione da parte delle ASL e dei nostri medici su un tema così importante.
I vaccini sono farmaci e come tali hanno rischi e possono avere eventi avversi anche gravi.
Chiediamo, per il bene dei nostri figli e delle generazioni future, che ogni genitore, adeguatamente informato, abbia
- la libertà di vaccinare;
- la libertà di personalizzare, con l'aiuto del medico, il calendario vaccinale;
- la libertà di rimandare.

COORDINAMENTO NAZIONALE
per la
LIBERTÀ DI SCELTA

Il **Coordinamento Nazionale per la Libertà di scelta** è formato dalle associazioni nazionali e dai comitati territoriali che promuovono un approccio alle vaccinazioni personalizzato e non coercitivo.

L'obbligatorietà vaccinale è una misura anacronistica, non necessaria (non esiste attualmente alcuna emergenza sanitaria), irrispettosa delle libertà individuali e non supportata da fondamento scientifico.
E' un atto grave, soprattutto nell'accezione prevista dalla nuova normativa, che ne fa un trattamento sanitario obbligatorio a tutti gli effetti.
Tale norma vìola il principio di autodeterminazione e i diritti della persona sanciti dall'art. 32 della nostra Costituzione.

"La Repubblica tutela la salute come fondamentale diritto dell'individuo e interesse della collettività, e garantisce cure gratuite agli indigenti.

Nessuno può essere obbligato a un determinato trattamento sanitario se non per disposizione di legge.

La legge non può in nessun caso violare i limiti imposti dal rispetto della persona umana".

Cosa sta succedendo

Nel settembre 2014 a Washington l'Italia è divenuta capofila per le strategie vaccinali a livello mondiale, decisione presa al Global Health Security Agenda.

Da quell'anno i dati Aifa (Agenzia italiana del Farmaco) sulle segnalazioni delle reazioni avverse non sono più disponibili e pubblicati.

Nel nostro paese è stata avviata una campagna di propaganda vaccinale senza precedenti, tesa a condizionare l'opinione pubblica attraverso un'informazione a senso unico, con allarmismi ingiustificati, screditando le prese di posizione critiche di chi manifesta un diverso pensiero o sostiene una posizione scientifica non allineata. Al tempo stesso, è venuta meno la possibilità di far emergere il danno da vaccino, in quanto il Ministero della Salute rigetta sistematicamente ogni istanza documentata del nesso causale. Manca dunque l'opportunità di comprendere se, quando e in che casi le vaccinazioni di massa possono causare danni agli individui, che sono così privati del diritto ad essere riconosciuti e curati. E la collettività viene privata del diritto ad avere vaccini sempre più sicuri. Non esiste alcuno studio indipendente in doppio cieco che dimostri gli effetti sulla salute umana a breve, medio e lungo termine dell'aumento progressivo del carico vaccinale, che chiarisca i profili di sicurezza ed efficacia di determinati preparati vaccinali, soprattutto se somministrati in dosi multiple.

Ogni tentativo di confronto in tal senso è stato stigmatizzato e rifiutato, opponendo un pensiero scientifico unico, contrario ai principi universali della medicina, che dovrebbe evolversi continuamente e che dovrebbe essere alla perenne ricerca di approcci terapeutici e preventivi sempre più sicuri ed efficaci.

Contrariamente all'approccio di libera scelta e di corretta informazione sui rischi e benefici delle vaccinazioni intrapreso da vari paesi europei, il decreto legge Lorenzin estende i vaccini obbligatori da 4 a 12,, senza alcuna emergenza sanitaria o condizione particolare che giustifichi questa scelta. E viola altri diritti costituzionalmente garantiti, come quello all'istruzione, vietando l'accesso alle comunità infantili (nidi e materne) ai non vaccinati e imponendo sanzioni pesantissime per l'accesso alla scuola dell'obbligo per le famiglie che non si adeguano.

Le violazioni e le mancanze

- Viene negato il diritto alla libertà di cura e di scelta terapeutica e il rispetto della persona umana (Art. 32 Costituzione).
- È negato il diritto all'istruzione (Art. 33 e 34 della Costituzione) e le famiglie sono pesantemente condizionate, perché minacciate di segnalazione al Tribunale dei Minori con possibile sospensione della responsabilità genitoriale;
- Non esistono informazioni ufficiali da parte dell'Agenzia Italiana del Farmaco (AIFA) sulla vaccinovigilanza dal 2014 ad oggi;
- Non esiste una sorveglianza attiva dello stato di immunizzazione della popolazione (vaccinata e non): non valutare l'efficacia delle vaccinazioni nelle fasi successive alla somministrazione comporta l'indeterminazione della reale copertura immunitaria della popolazione e rende vana ogni considerazione sull'immunità di gregge, uno dei punti fondanti il decreto stesso;
- Pur esistendo un numero cospicuo di studi scientifici che attestano il fenomeno delle reazioni avverse ai vaccini (in particolare nell'infanzia, sia per la presenza di metalli tossici come l'alluminio che per l'azione stessa del farmaco-vaccino sull'organismo umano) questi non vengono presi nella dovuta considerazione da parte del sistema sanitario nazionale, che omette sistematicamente una corretta valutazione del rischio, in particolare per la somministrazione di vaccini multipli;
- Le aziende sanitarie non ottemperano alle norme che impongono la trasparenza e l'informazione sui vaccini, in particolare ai sensi della legge 210/92, art. 7;
- Non sono adeguatamente valutati i profili di conflitto di interesse fra le case farmaceutiche e gli "attori" del sistema sanitario nazionale, con particolare riguardo alla sorveglianza post marketing dei farmaci in generale e dei vaccini in particolare.

  Esiste un oligopolio nel mercato dei vaccini, come denunciato dall'Antitrust nella relazione del maggio 2016. Ci sono inoltre conflitti d'interesse a carico dei vertici degli enti preposti al controllo;
- I medici che lavorano da anni sulla problematica del danno da vaccino e che hanno prodotto corpose relazioni che ne descrivono gli effetti vengono criminalizzati e perseguiti, attraverso un processo mediatico che intende demolirne l'immagine, quando non vengono addirittura radiati dopo istruttorie farsa da parte degli ordini professionali. In tal modo si intende mettere il bavaglio all'informazione e precludere ogni possibilità di accertamento dei danni. Nel contempo medici e professionisti che si macchiano di reati gravissimi restano al loro posto indisturbati.

Cosa proponiamo

- Libertà di scelta vaccinale come elemento della più ampia scelta terapeutica;
- Tutela del diritto all'istruzione;
- Tutela della famiglia e della responsabilità genitoriale;
- Garanzia dell'autonomia professionale del medico, che è legittimo che agisca in scienza e coscienza;
- Istituzione e aggiornamento continuo di protocolli per l'anamnesi pre-vaccinale mirata all'individuazione di particolari controindicazioni alla vaccinazione dei soggetti esposti al rischio di reazioni avverse. Formazione continua degli operatori;
- Pubblicazione dei dati AIFA sulla vaccinovigilanza con regolarità e trasparenza;
- Trasparenza nei meccanismi della farmacovigilanza e della vaccinovigilanza, attraverso l'istituzione di commissioni permanenti di controllo con la partecipazione attiva dei cittadini;
- Aggiornamento continuo della valutazione del rischio per le somministrazioni vaccinali, sulla base dei risultati periodici della vaccinovigilanza;
- Istituzione di una vaccinovigilanza attiva e agevolazione dei processi di notifica delle reazioni avverse, anche attraverso una corretta informazione condotta capillarmente nelle aziende sanitarie territoriali. Formazione continua degli operatori;
- Istituzione di un sistema di ricerca pubblico e indipendente da conflitti d'interesse che indaghi sulla sicurezza e l'efficacia delle vaccinazioni, sui bilanci di salute nel medio-lungo periodo, evidenziando tutti i profili epidemiologici dell'età evolutiva;
- Istituzione dell'obbligo di trasmissione ad Aifa e alle commissioni competenti di controllo dei fascicoli integrali prodotti dalle case farmaceutiche nella sorveglianza post-marketing dei farmaci e dei vaccini.

Cosa puoi e possiamo fare?

In gioco non c'è solo l'iscrizione alla scuola dei bambini o il rischio di pagare sanzioni altissime se non si è in regola con le vaccinazioni, c'è molto di più.

E' in gioco la libera autodeterminazione di ogni individuo in materia di salute. I medici saranno obbligati a rispettare rigidi protocolli che prescindono da ogni possibile personalizzazione della cura, non potranno quindi più agire in scienza e coscienza, pena il rischio di non essere tutelati nell'esercizio della libera professione o, peggio, di essere radiati dal loro ordine professionale..

Di fronte a questa situazione chiediamo a tutti Voi di essere parte attiva in questa campagna di informazione e mobilitazione.

Diffondete questo ed altri materiali informativi fuori dalle scuole, nei mercati, nei luoghi pubblici in genere. Non esistono genitori o bambini fuorilegge, non esistono bambini untori o portatori di malattie. Quello che vi stanno propinando con ogni mezzo è un grande inganno mediatico, una falsità scientifica, un atto di odiosa intolleranza.

Non fatevi ingannare e pensate con la vostra testa: rispettate la libertà e la dignità di tutti, pretendete rispetto.

E' necessaria la mobilitazione di tutti.
