1. Then moves on, on the whole,
too long. Maybe because I've been
watching Art nous Brown "High Life"
(2017) at 1.44⁵⁶ is too long. It doesn't
help that it has rained not one but
so far 2 rare scenes, which is too
many. A woman gets raped, & it's
horrible & the rapist is immediately
killed. A man gets raped & it's
almost routine. The subplot is the
antagonist in semi-fiction for Sandy
at a bunch of human's Bay that
into a black hole. So I guess that
takes the effort to be scientist
work product, but still not
a cool feeling for of 'Joke.
Real word not name. Another
space-dancer's trying to make
children? For sure return.
I should've probably looked up
the - Synapsis? But I have known
what happens before it does.
I hear Kelcom's interview through,
no-one recorded this movie to me.

The wind blew fairly fast
right, & I was awoken by a sound,
that made me dream of having to
carry tiny diamonds on plate
flats, because that was what it
sounded like. I do not know what
actually caused the noise, but
it about drove me nuts at 0530.
Pushing on the window at the top

Somehow Dampened
the noise for me to
sleep, but only for
about 15 ~~hours~~ mins.
at a time. I considered

opening the window wide, but
I couldn't reach the latch. I think
that would be worse too. I think
the weatherstripping in the center
is off. It really did sound like
glass being cut with a small
diamond, not a large one. I
don't think that would have
a difference really. But the
point is that it was

Real subtle & incredibly loud. I think.
I should've recorded it. My first thought
(which went so wrong) was that the glass
of the shade was rubbing? Or against
something. I shifted them around but
the seal resisted with I shook the
window itself, but not the top so it
returned on the lock & that's better
seal.

Seal (the animal) &
Seal (the action)
should be spelled
differently.

I then asked the optician-man to the
Projector today about the image of
drawing a protected image came
to me in a bit in the shower.
That projector so much I don't think
that'll hurt or too bad. But
fading the man on the wall
better or no. But when I was

But from 1959. she is doing well as
I am doing well in pages & really
sincerely is interesting. Any time
I want to make the whole thing
rip off & start over & messed things
up. Like history & state.

I was wondering why, obviously
you concerned about legacy, but
sometime in the 1940s? In 1994
she collected her many poems - my
uncle grand mother was a poet who
had her work published in the Aiken
the grand's Pass country. - why
she collected the poems into a
book of a sort, 3rd or 4th, &
gave it to her uncles & aunts -
this, she wrote in the introduction,
was her way of connecting with
family her mother. Several of
the poems, along a related theme,
were by William Wordsworth about the Parter,
some written at Newbury. The letters
Grannie is collecting are to her mother
written by her, about her own
own poetry. They are, Poetry. But
she was a strong strong clear voice.
Now she is doing the same thing ~~for~~
for herself that she did for her
mother, collecting her self in

memory. Because none of her children,
not even Robert the self-proclaimed
poet, will do this for her. At least
not while she is alive & can appreciate
it. I don't mind Drugging a few photos
in the memory of the mother is
great. It's just clerical, not even
editorial work really, left to do.

What drives us, this family especially
to want so desperately to make
us mark on the world. afraid
of being forgotten. I'm publishing my
poems, Bob has self-published a
collection of a book of poems things
in the other room, and is a local
learning star, living an active life.
There is a preacher
is it the jawing silence at the altar
asking to be killed? Is it the
taste of strong Afters at the altar?

must be the first day of my ^{circles} the new job
today. it was an "orientation" which
wasn't at all like a walk-through VHS
(Digitized) from 1997. ~~Superstar~~
re other constraints were 5 4th
schoolers who must even arrive
in 1997. I told that to Gabe & the
said "ah, I was born in 1997 so I
probably not" which dried my bones
into ash. I'm doing some kind of
other training tomorrow. @ 1730.
I don't know what that means.
But I'm eager to work. Deepwood
camp, wood, etc. AS hard to feel
like you're really working when you
chatting & laughing. I was to do
something. and watching the sun
set through Douglas firs & oaks
at Madeline Canyon in the world
where he is better than anyone. 121

There was a obnoxious (man) in the
"Break Room" a little higher up
space, who seemed to think we
were taking him on our tour
of the facility. He also didn't
know where a keg was even
though he was sitting right to one
and had a phone. He asked
the 25th college (Drapart?) who
was the Reifying adult, several
times what a keg was, because
he "adult" was taking about it for
a long time. I warned it with become
a kind of prison. His look clearly
was a prison for this reason. (He)
the general attitude of "I can't
believe this" But there must be
new behaviors persuaded about,
others? It seems like this job is
in overpriced. Chens & Orens
& Spits can eat, unless they're
idiots or mavericks. I plan to be
a monk. *

Fixer, Weather Day (23/Feb)
Ripped a hole in the right elbow
of my jacket (Blue work) and I like

that the last couple days fixer
is. On the 2nd, I think I finally
wound it. Decided to add an
elbow patch. It looks good.
I seemed to be with, who in Iran
heavily is now Bhangy now.
It came out, with a look like
in every thing? I'm out on
better words. In truth I'm carrying
Kela, Casper, and Rebecca's
D&D character group.

If I want to watch a movie
for free I have to call the Fajardo
& Tughl Call the Theatre I want
to go to. Seem out dated. My
Hick Day of Real work is Sat.
My artist making me look like a
man who works in a bar by the way.
