We're in Bartlesville - where apparently
Conoco Phillips is from? Dad bought a car
from their air division that ran the
airport we landed at. But that division
is letting shut down of all the guy land

I had Sandy call a Llaneros Bless

Luke couldn't have known anything about the clove wars - Ben tells him his Dad was an officer in the clove wars & Luke doesn't immediately go "my Dad was either a Jedi or a cluck" b/c there were NO civilian casualties - except Turkish and like a hundred of high command.

This morning I heard terrible Thumping as if a horse were in the Building and then expressed screaming from the cats. I eventually got out of bed (0745) and Ben came to look and Pixie was in Dads spot on the couch and racing their everywhere - in clumps. Pixie took off her teacup and I saw something - (Pixie on the floor in front of her)

She leaped up on a chair and I grabbed her and got the huge piece of poop (splashed) that was dangling from her butt. I walked around disinfecting the solid marks off the tile

(all over the track) and when I got back they were both sitting calmly next to each other demanding food.

Got cat water from the stove - there was only one - and when I took a corner it tipped all over the hold. I used it up w/ the Dyan "Lumpy" or whatever - took the long nose off and licked in a small brush. Then vacuumed up light grey cat snot from black hold/carpet. Peter licked and the tidest mess, and his carriage too.

But I haven't even identified
the old cards w/ Sasha yet. I have
spent most of my time cleaning,
and cleaning. The car is in
a parking garage and will be
expensive. I contacted them about
a monthly license this morning but
it feels like its in stock.

Sasha's house suffered the same in
close succession and rivaled some of
man's worst episodes. She has
spoken to a therapist since Jan,
and I made her break down crying
last night b/c I pointed out, good
naturedly ~~that~~, I think. But w/
me who knows, that she was "hogging
the remote" when we were playing
daddy father order.

CHILD is at home mostly playing
Polydora hearts (Rebirth one) which
was also been one of my projects,
trying to understand their obsession
with it. The closest I can get is
"mostly nostalgia" B/C the game
is Bad. Probably it gets better
BUT it is hard to play (controls)
and vglf. But not in service of
something, just an assault.
~~the~~ I would like it more relaxed
BUT it's just saying "Friendship
is more painful than darkness" in
60 no over and over again.
I had a lot of fun making a
spaceship - a "gunny" ship though.
I liked that, and apparently I'm
alone in that LOL. Like playing
lego model maker w/ a controller.
I initially bought Father's order to
play on my own, but it's been
increasingly passing the controller
back and forth. This is an
experience that I think a
lot of people get as children
playing "the XBox" - But saying
an only child & I never played

video games, not alone w/ other
kids. my next point Bel a lot are

I have been trying to contact the
Perry garage about
my car like a
Perry fortnight.

Donating
money

When I first got there I wanted to
park on the street. But the street
parking is locked down. They
are saying they will move to Resonator
But I thought that say otherwise.
So I drove around in a panic for
a while. I've tried to leave to stop.
until I found a parking garage —
the parking garage around here.

So there's a sign on the house that
says \$2 parking but that's only for
the first 15 minutes. Then "12 max"
or "8 overnight" which by my math
adds up to 20. So I have to take
my car in and out that's like 20.

But if I were to leave it in there,
that's 8 overnight, the car
only resets when you enter.

So I tested this, and just left
it in there. So I should be left
today or the other. But I have
worked in this month

But my name - and a few
emails revealed it to be as
cheap as ~~the~~ 110. or like a week
of staying at a 5 day in or out.
The problem is that they only answer
their emails once a day?

So I would send something like
"Can I Buy a Car a Month Pay?"
which seems very reasonable.
and I'd wait a Day or two
for a response - never a get or no
But another question.

Finally after trying to get a straight
answer for a week re email one
suddenly coming from a woman
not in address (sister) who is like
"who is this" and "in about 10 days
a car" and though she says says
weekly too and I've been
waiting for this for a week -
this thing that should be taken
20 mins if you'd answer your
emails. So I send 1 Evidently
Buy a month Pay and
Pay off my Balance. 10
Ocal which

is what I was asking about, and
then! and then! they ask "when
can you come down" and I'm like
1400 and my car answer so at
1405 I say "hey (R this) time is 1300 Pay
you - you tell me where to be"
and my car answer and then
at 1420 I call them and they're
like - oh sorry ~~just read your~~
your email just come through
and my guy and - ~~to~~ I get off
at 1630 so I'll come by then.
I wait water 45 mins on
either side of 1630 and my reply

While watching Drive my Car at
the Laemmle, I am reminded that
I did have a sterling ring once.
at the Flea Market last Sunday
I picked up a ring like this:

with a black, "stone" in the
center, and thought to myself that it's
strange that I didn't have a real
ring. But I did. A silver signet

ring that I thought was a white
 or it but turned out to
be mirrored and reflecting
the set it was photographed in.

I almost lost it here in LA. I
think. Before ultimately losing
it in my car. In our garage
I think. and then I lost it. Perfect.

how so many writers have the same

if anything from yesterday was good.

And his "brother".

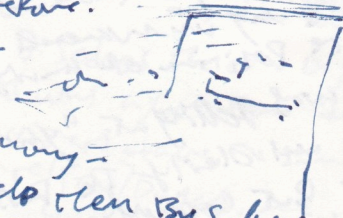

there were no scores in their
recalling of "brother". That's not
what! How do you get there?

last night Susan and I went and
saw the Oscar shorts at the
Lacumbe. I made her cry bc
I was, mainly, complaining about
how Peter Messing (met and wrote
4/5 of them) were - and 2 things:

1. she thought there were good parts
and my unvarnished take put her
in the position of having to defend her.
2. I was talking as "you" which so
meant clearly the person who made
it - but looking in her eyes and
saying "you" felt like I was talking
to her and making her account.
And not her.

I've also been reading writers

I caught up to Susan again at

I don't pass along as much wisdom
who as I could from Susan but
my husband responded.

Feeling guilty doesn't help.
Still haven't gotten a piece of

Susan came in behind me and went
to sleep in my Bed while I was
staring watching the locos
- like an hour or two ago.
Not sure why or what to do exactly.
Earlier I said "you're in love!" and
she said that she didn't want to
sleep too long and it's more likely
if she won't sleep too long in
there B/c I'll probably wake her up.
How long is too long? we don't
bake anywhere to go, that I
know of. Chloe is asleep in
their bedroom - why not sleep there?
Their relationship is very stable at
least I worry about how much the Susan
and I are bonding together. I don't
want Chloe, I don't mind at all.

I slept with it in down when to
a night time but been the gate.
Sounded different - and re alarm
didn't sound like a car alarm
but a ~~store~~ alarm - I don't
get a clip at it so I don't

know if it was a dream
or not.

Sasha, who ~~said~~ I've been
reading my new Book
to. Said it is suitably

enthusiastic that says that it
looks like a nice little and
too it had to keep track of
people who comes. I think for
names in B/C I think it is
opposite - I had it had to
come names to his series.
It's easier for me to know
someone by their job or place.

The reading out is I think
important, B/C it's supposed to
be an oral tradition I think.
More of these places need names.
I don't have to think up a name
and I think the name of so
and so. Everything I write
is so decorative.

I feel like someone watching
these people like their wives.
It does feel better to
hear it spoken than see
it on the page.
